1) Comprises staff costs, administrative expenses and amortisation, depreciation and impairment charges.

2) Reclassified from Other operating income and Operating costs.

3) Incl. net income from investments accounted for under the equity method (excl. sector shares).

"We progressed on all markets in the third quarter. Volumes increased, customer activity was high, net impairments were reversed, and we managed expenses with discipline. Tighter interest margins remained a challenge for us but the adverse effect on income was more than offset by an increase in both corporate and per-personal lending during the quarter," Árni El-lefsen, CEO.

Income statement

The BankNordik Group generated operating income of DKK 160m in Q3 2018, up by DKK 3m compared to Q2 2018. Net interest income was up by DKK 1m in Q3 2018 compared to Q2 2018 due to an increase in lending volumes. Net fee and commission income amounted to DKK 43m in Q3 2018, flat compared to Q2 2018. Net insurance income amounted to DKK 13m in Q3 2018, flat compared to Q3 2017.

Operating and sector costs amounted to DKK 111m in Q3 2018, down by DKK 5m compared to Q2 2018. The decrease was consistent with the Group's efforts to keep at tight grip on costs. Marketing expenditures in the YTD period were below normal, but will increase in the final quarter of the year due to the launch of a comprehensive digital marketing campaign in Denmark.

Profit before impairment charges was DKK 49m in Q3 2018, up from DKK 42m in Q2 2018. Net impairment charges were a DKK 39m reversal in Q3 2018 compared to a reversal of DKK 23m in Q2 2018.

Operating profit was up by DKK 23m from DKK 65m in Q2 2018 to DKK 88m in Q3 2018.

Balance Sheet

BankNordik's total assets at 30 September 2018 amounted to DKK 16.7bn. Loans and advances were DKK 10.0bn, i.e. up by DKK 471m compared to 31 December 2017. Deposits were DKK 13.2bn, an increase of DKK 530m compared to 31 December 2017. Liquidity invested in bonds, primarily in Danish mortgage bonds and Danish government bonds, amounted

to DKK 4.6bn, an increase of DKK 296m compared to 31 December 2017. Liquidity invested in equities amounted to DKK 344m, an increase of DKK 95m relative to 31 December 2017. The surplus liquidity at 30 September 2018 was 219% higher than the statutory requirement. The Group's equity at 30 September 2018 amounted to DKK 1,949m, up by DKK 128m compared to 31 December 2017.

Share buyback programme

In August 2018, BankNordik initiated a new DKK 15m share buyback programme, which will run until 30 March 2019 at the latest and allows BankNordik to acquire shares for up to DKK 15m. As of 26 October, the Group had acquired 104,700 shares YTD at an average purchase price of DKK 112 per share. BankNordik expects to continue to reward its shareholders through share repurchases.

Capital ratios

The Group's CET1 capital ratio fell by 0.8 percentage point quarter-on-quarter to stand at 15.5% at 30 September 2018. The total capital ratio decreased to 17.6% at 30 September 2018 from 18.5% at 30 June 2018. The decrease in capital ratios was partly attributable to an increase in risk-weighted assets and partly due to changes in accounting guidelines for which BankNordik has chosen not to recognise net income within a given year in the capital and solvency statement until the annual report is released in audited form.

Events after the balance sheet date

No events have occurred since 30 September 2018 that are deemed to have a significant impact on the Group's financial position.

Outlook

Management expects operating profit before impairment charges to come in at the upper end of the guided range of DKK 160-200m in 2018 (9M 2018: DKK 137m). However, potential insurance claims in the final quarter of the year may have an adverse effect on the full-year results.

On 18 October 2018, BankNordik raised its guidance for 2018 net profit from DKK 190-240m as previously guided to DKK 240-280m, driven by the strong reversal of impairment charges.

This guidance is generally subject to uncertainty and will, amongst other things, depend on economic conditions, loan impairments and market value adjustments.

Note 1 Significant Accounting Policies

The consolidated financial statements for the first nine months of 2018 have been prepared in accordance with IAS 34 "Interim Financial Reporting" supplemented by additional Faroese disclosure requirements for quarterly reports of listed financial companies and in accordance with the financial reporting requirements of the Nasdaq exchange in Copenhagen. The financial statements of the Parent Company, P/F BankNordik, have been prepared in accordance with the Faroese Financial Business Act and with the executive order on financial reports of credit institutions etc. of the Danish FSA as applied in the Faroe Islands.

The application of IAS 34 means that the disclosure of figures is less detailed than the disclosure in a full annual report and that the valuation principles laid down by the international financial reporting standards (IFRS) are applied.

As of January 1, 2018 the Group has implemented the International Financial Reporting Standard IFRS 9. The effects of the implementation on the Groups balance sheet are explained below. Otherwise the Group's significant accounting policies are consistent with those applied in the Annual Report 2017. The Annual Report 2017 provides a full description of the Group's significant accounting policies including a description of IFRS 9.

Effects on the Group's Balance Sheet due to the implementation of IFRS 9

The implementation of IFRS 9 has, given the Group's business model and types of financial assets and liabilities, solely had an effect on those of the Group's financial assets, which are measured at amortised cost (loans and guarantees).

The IFRS 9 reporting standards stipulate a new impairment model, which derives estimated losses on exposures based on statistical or specific loss expectations. Under the previous standards, an impairment charge was only recognised when a risk of loss was identified or incurred.

Under IFRS 9 exposures are grouped into 3 different stages and classified as stage 1, 2 or 3 depending on the risk of credit loss.

In accordance with the transitional provisions of IFRS 9, the Group has chosen not to apply the changes retrospectively. As such, the cumulative effect of the changes has been recognised as an adjustment to equity in the opening balance of 2018, while comparable figures for 2017 have not been restated. The impact on the Group's balance sheet, i.e. the effects on loans and advances, provisions for liabilities and on equity, is shown in the table below.

Balance sheet as of January 1 2018 due to changes in accounting policies

		Group January 1 2018	BankNordik January 1 2018	Effects of IFRS 9	Group Dec. 31 2017	BankNordik Dec. 31 2017
Note DKK 1.000						
	Assets					
9	Loans and advances at amortised cost	9,054,524	9,054,524	-51,884	9,106,408	9,106,408
	Shareholders' equity and liabilities					
	Provisions for losses on unused credits	4,136	4,136	4,136	0	0
	Provisions for losses on guarantees	37,677	37,677	14,037	23,640	23,640
	Current tax liabilities	17,393	14,521	-17,407	34,800	31,929
	Equity	1,767,444	1,767,444	-52,649	1,820,092	1,820,092

As illustrated in the table above, the total negative effect of the implementation of IFRS 9 on the Group's equity as of January 1, 2018 is DKK 52.6m

Notes

Note **Future financial reporting standards and interpretations**

1
(cont'd) The International Accounting Standards Board (IASB) has issued a number of new accounting standards (IAS and IFRS) and interpretations (IFRIC) that have not yet entered into force. Please refer to the Annual Report 2017 for further information.

Accounting estimates

The measurement of certain assets and liabilities requires management to estimate how future events will impact on the value of such assets and liabilities. Estimates of significance to the financial reporting are made in connection with determining the impairment of loans and advances, the fair value of unlisted financial instruments, provisions, business acquisitions etc. Estimates are based on assumptions that management considers appropriate but which are inherently uncertain.

The most significant estimates that management makes in applying the Group's accounting policies and the most important uncertainty affecting estimates made when preparing the condensed interim report are unchanged from the estimates made in connection with the preparation of the Annual Report 2017 and the uncertainties prevailing at that time.

Determination of fair value

The fair value of financial assets is measured on the basis of quoted market prices of financial instruments traded in active markets. If an active market exists, fair value is based on the most recently observed market price at the balance sheet date.

If a financial instrument is quoted in a market that is not active, the Group bases its measurement on the most recent transaction price. Adjustment is made for subsequent changes in market conditions, for instance by including transactions in similar financial instruments that are assumed to be motivated by normal business considerations.

If no active market for standard and simple financial instruments, such as interest rate and currency swaps and unlisted bonds, exists, generally accepted valuation techniques rely on market-based parameters for measuring fair value. The results of calculations made on the basis of valuation techniques are often estimates because exact values cannot be determined from market observations. Consequently, additional parameters, such as liquidity risk and counterparty risk, are sometimes used for measuring fair value.

	At September 30 2018 the Group had deposited bonds at a total market value of DKK 33m (Q3 2017: 37m) with Danmarks Nationalbank (the Danish Central Bank) in connection with clearing. Deposits of bonds to others in total have a market value of DKK 30m (Q3 2017: 44m).				

Statement by the Management

We have today considered and approved P/F BankNordik's interim report for the first nine months of 2018.

The consolidated financial statements for the first nine months of 2018 have been prepared in accordance with IAS 34, Interim Financial Reporting as adopted by the EU, while the interim financial statements of the Parent Company have been prepared in accordance with the Faroese Financial Business Act.

Furthermore, the Interim Report has been prepared in accordance with additional Faroese disclosure requirements for interim reports of listed financial companies and in accordance with the financial reporting requirements of Nasdaq Copenhagen. The interim financial statements have not been audited or reviewed.

We consider the accounting policies applied to be appropriate, such that the Interim Financial Report gives a true and fair view of the Group's and the Parent Company's assets, shareholders' equity and liabilities and financial position at 30 September 2018, and of the results of the Group's and the Parent Company's operations and the Group's and Parent Company's cash flows for the first nine months ended 30 September 2018.

In addition, we consider the Management's report to give a fair presentation of the development in the Group's activities and financial affairs, the profit for the period and the Group's financial position as a whole, as well as a description of the significant risks and elements of uncertainty that may affect the Group.
