

BERGENBIO ANNOUNCES POSTER PRESENTATION AT SOCIETY FOR IMMUNOTHERAPY OF CANCER (SITC) ANNUAL MEETING 2021

Bergen, Norway, 01 October 2021 – BerGenBio ASA (OSE:BGBIO), a clinical-stage biopharmaceutical company developing novel, selective AXL kinase inhibitors for severe unmet medical need, is pleased to announce that it will deliver an e-poster presentation at the Society for Immunotherapy of Cancer (SITC) 36th Annual Meeting, taking place online from 10-14 November 2021.

Abstract titles have been announced online at the [SITC](#) website. Details of the presentation are below.

Title: *AXL targeting with bemcentinib restores PD-1 blockade sensitivity of STK11/LKB1 mutant NSCLC through innate immune cell mediated expansion of TCF1⁺ CD8 T cells*

Author: Rolf A. Brekken et al.

Abstract ID: 602

Full abstracts will be available on the SITC website beginning November 9th at 8:00 AM ET.

-Ends-

About BerGenBio ASA

BerGenBio is a clinical-stage biopharmaceutical company focused on developing transformative drugs targeting AXL as a potential cornerstone of therapy for aggressive diseases, including immune-evasive, therapy resistant cancers. The company's proprietary lead candidate, bemcentinib, is a potentially first-in-class selective AXL inhibitor in a broad phase II clinical development programme focused on combination and single agent therapy in cancer, leukaemia and COVID-19. A first-in-class functional blocking anti-AXL antibody, tilvestamab, is undergoing phase I clinical testing. In parallel, BerGenBio is developing a companion diagnostic test to identify patient populations most likely to benefit from AXL inhibition: this is expected to facilitate more efficient registration trials supporting a precision medicine-based commercialisation strategy.

BerGenBio is based in Bergen, Norway with a subsidiary in Oxford, UK. The company is listed on the Oslo Stock Exchange (ticker: BGBIO). For more information, visit www.bergenbio.com
