Please refer to Note 2 to the interim condensed consolidated financial information for more operating segment information.

BUSINESS OVERVIEW

After three decades of development, the Group has grown into a global innovation-driven consumer group, strengthening its presence in four business segments, namely Health, Happiness, Wealth and Intelligent Manufacturing. The Group has accumulated profound experience and built up capabilities in the fields of globalization, technology and innovation, business ecosystem and FES¹, and its rich and diverse businesses and global business presence have led the Group to strengthen its core businesses that could bring stable, synergistic and sustainable growth. The Group presses ahead with the “profound industry operations + industrial investment” strategy to further promote its implementation and development, driving the sustainable development of Fosun’s ecosystem and providing high-quality products and services to families around the world.

Having strong fundamentals to withstand risks, profound industry operations to drive sustainable development

It was against the backdrop of complex and volatile macro-environments in China and overseas that the Group continues to consolidate its profound industry operations and footprints and enhance its capability to withstand risks by leveraging its balanced business presence at home and abroad. Benefiting from the Group’s continuous strengthening of the member enterprises’ industrial operations over the past few years, the Group’s enterprise operation profit² during the Reporting Period amounted to RMB2.33 billion, representing a year-on-year increase of 35.5%. However, due to the impact of the pandemic, the increase of commodity raw material prices and the effect resulted from the capital market volatility, the Group’s industrial operation profit³ amounted to RMB3.61 billion, representing a year-on-year decrease of 35.9%. The Group’s profit attributable to owners of the parent during the Reporting Period decreased by 32.6% year-on-year compared to the same period of 2021 to RMB2.70 billion. Looking ahead to the second half of the year, the Group expects a gradual recovery in its business which will be reflected in its financial and operational indicators on the back of the gradually easing pandemic in China and the gradual abatement of the impact of international black swan events.

¹ Fosun Entrepreneurship/Ecosystem System (“FES”) refers to a business management system with high management efficiency that continuously evolves in practice in order to build the core competitiveness of a time-honored enterprise and cultivate talents with Fosun’s entrepreneurial spirit.

² Enterprise operation profit: It includes the profit contribution of the major members of the Group, of which the profit of A-share listed members is adjusted to exclude the gain/loss of the non-recurring items.

³ Industrial operation profit: It includes the profit contribution of industrial operation subsidiaries of the Group and associates and joint ventures accounted by equity method.

Striking a balance between investment and divestment to strengthen cash flows, optimizing capital structure to promote business development

The Group has continued to enhance its financial position by means of capital management so as to form a sound ecosystem of finance and thus laid a solid foundation for its long-term and stable development. The Group continues to strengthen investment management by actively striking a balance between investment and divestment, and disposing of its non-core assets when opportunities arise. At the level of its subsidiaries, the Group focuses on four major business segments, and gradually extends its investment to the value chain of high value-added industry, thus strengthening its business portfolio. During the Reporting Period, in terms of investment, Fosun Insurance Portugal acquired 70% equity interest in The Prosperity Company, which is a digitally-driven insurance company based on a pension wealth management platform with operations in Europe; in terms of divestment, the Group and a non-consolidated fund managed by the Group have successively reduced their H-share holding in Tsingtao Brewery Company Limited since 2019 and fully completed the divestment in the first half of 2022. The Group and such non-consolidated fund recorded approximately HKD15.8 billion in accumulative proceeds from the sale of such holding. In April 2022, the Group announced the disposal of AmeriTrust, an American insurance company, which is expected to bring considerable cash flow to the Group after the completion of the transaction. Meanwhile, the Group continued to promote the securitization of underlying assets, and achieved transparency in asset valuation and facilitated rapid growth of assets through equity financing and other means. In March 2022, Lanvin Group and Primavera Capital Acquisition Corporation announced that they have reached a combination agreement. Upon completion of the merger transaction, Lanvin Group will be listed on the New York Stock Exchange under the stock code “LANV”.

In terms of treasury and liability management, the Group has been proactively managing debt maturities and continuously optimizing debt structure. During the Reporting Period, the Group took both prudent and proactive approach to its financing activities and have achieved remarkable results in raising funds on the bond market and via bank financing. During the Reporting Period, the Company and Fosun High Technology, a wholly-owned subsidiary of the Company, financed RMB17.67 billion in the domestic and offshore public market (including syndicated loans). Fosun High Technology issued new bonds and resold its existing puttable bonds with a total value of approximately RMB10.2 billion and raised approximately RMB1.66 billion through RMB syndicated loans from foreign banks. Fosun International obtained new offshore syndicated loans of approximately USD875 million in

USD equivalents. The syndicated loan represents the Company's success fund-raising through offshore syndicated loans for six consecutive years, the Group's credit has been continuously recognized of by both Chinese and foreign banks. While maintaining the stable financing channels and optimizing the financing cost structure, the Group also has proactively been managing debt maturities in advance and improved its debt maturity profile by means of tender offer and purchase of its own bond in the secondary market. In June 2022, Fosun International announced a tender offer to repurchase all the bonds that will be puttable or mature in the second half of 2022. And up to the end of July 2022, the Group had tender offered/repurchased/purchased altogether USD366 million equivalent of face value of Fosun International's bonds. Meanwhile, the Group also actively explored new financing channels. During the Reporting Period, Fosun High Technology successfully issued USD150 million worth of Shanghai Free Trade Zone bonds and RMB2 billion worth of Hainan Mining exchangeable bonds, with three years tenor for both issues, effectively optimizing the bond duration and expanding the investor base.

As at the end of the Reporting Period, the Group's total debt to total capital ratio was 56.8%, which was 3.0 percentage points higher than that as of the end of last year. Its cash and bank balances and term deposits reached RMB117.65 billion. The average cost of debt was 4.50% during the Reporting Period, reflecting the Group's stable and healthy financial position.

Pursuing growth with core competencies, maintaining resilience and fostering capabilities to drive future development

Building up global presence to create value of businesses. As a global enterprise rooted in China, the Group thoroughly develops the Chinese market and at the same time has been building up its global operation and investment capabilities based on its business presence in over 30 countries and regions around the world. It linked up its various businesses and resources in different countries and regions, actively expanded the geographical markets of the Group's member companies and facilitated the rapid development of such member companies' business outside their home countries. Benefiting from the Group's global business presence and capability of generating synergy within the ecosystem of its businesses, the Group's various businesses further strengthened their global business in the first half of 2022. Overseas revenue amounted to RMB38.76 billion, which grew by 30.7% year-on-year and accounted for 46.8% of the total revenue. Since its launch, a cumulative total of over 30 million doses of Comirnaty[®] (mRNA COVID-19 vaccine), which had been jointly developed by Fosun Pharma and BioNTech, were sold in Hong Kong, Macau and Taiwan region. In this January and March, it was licensed by the Medicines Patent Pool (MPP) to produce and

supply the generic version of Merck’s oral COVID-19 antiviral medicine Molnupiravir and Pfizer’s oral COVID-19 treatment Nirmatrelvir as well as the combination of Nirmatrelvir/Ritonavir to low- and middle-income countries in the agreed regions around the world. The licensed scope of production included the active pharmaceutical ingredient (API) and finished drug, thus continuing to contribute to the global fight against the pandemic; After years of profound industrial operation, Lanvin Group has developed into a fashion group covering high-end fashion, skin-friendly clothing, shoes, leather goods and other multi-brand and multi-product lines, and its business covers major markets around the world. In the first half of 2022, Lanvin Group announced that it plans to be listed on the New York Stock Exchange by merging with Primavera Capital Acquisition Corporation to create a global luxury fashion group; the 2.6 million-tonnes coke project of Nanjing Iron & Steel in Indonesia was successfully put into production in this May.

Accelerating development of businesses in the ecosystem and promoting win-win cooperation. The Group dedicated itself to providing more high-quality products to customers through its profound industry operations, with a view to creating a multiplier effect within its ecosystem. It has formed a “multiplier growth” effect on the Group’s business development through a series of strategic measures and management tools to facilitate the profound development of its businesses worldwide. The Group has always regarded “C-end Top Priority” as the core strategy of its FC2M Ecosystem. The Group is committed to making good use of the internet platform and other digital solutions to attract and serve users via both online and offline channels to create value for both its customers and ecosystems. As at the end of the Reporting Period, the Group’s ecosystem has created a total value⁴ of approximately RMB3.8 billion. The cumulative number of operational members⁵ of the Group amounted to 414 million. The number of newly registered members in the first half of 2022 was 18 million. The Group’s two top C-end platforms achieve upgrades and growth continuously. Specifically, Fosun Alliance has facilitated cross-sector consumption from 40% of its active members after launching the Internet platform, and Fosun Health has accumulated 18.14 million registered users, and collaborated with nearly 50 external and internal enterprises in carrying out innovative cooperation within the ecosystem. The high-

⁴ Value created by the Group’s ecosystem refers to the revenue contribution (before intercompany eliminations) directly or indirectly created by companies within the Fosun ecosystem for other companies within the ecosystem, including but not limited to cross-selling, product co-creation, membership contribution, membership sales transformation, and sales collaboration within the ecosystem, joint industrial investment, financing cooperation empowerment, industrial resource coordination, etc.

⁵ An operational member is defined as a consumer who has agreed to the brand’s official membership terms and conditions and granted privacy in any channel, has actively retained personal information including phone number, and is identifiable, reachable and traceable. From 2021 onwards, this statistic includes consumers within the Fosun Health ecosystem.

quality products and services created by the Group are meeting the needs of household customers in various fields, forming the base of the Group’s ecosystem.

Leading the industry in technology innovation and nurturing future potential. The Group has always valued the power of technology and innovation. It has built up profound technology and innovation capabilities through the continuous accumulation of experience at its businesses and investment in research and development (“R&D”), and has continued to invest heavily in technology and innovation capabilities. In the first half of 2022, it invested approximately RMB4.6 billion⁶ in total to foster its technology and innovation capabilities. During the Reporting Period, HANSIZHUANG[®] (漢斯狀[®]), a PD-1 monoclonal antibody product self-developed by Shanghai Henlius, was conditionally approved by the National Medical Products Administration (NMPA) for the treatment of adults with advanced unresectable or metastatic microsatellite instability-high (MSI-H) solid tumors that have failed to respond to the standard therapy; combining the scientific research achievements of domestic universities, internationally cutting-edge technologies and patents independently developed by cosmetics research centers, Yuyuan has created “YOGAN (愈感)”, its first functional skin care product brand which is fully independently developed and incubated; by the end of 2021, the Group owned a total of over 1,500 patents for inventions. These patents will be continuously transformed into the Group’s productivity with the support of the Group’s global business presence and continuous innovation capabilities.

Building the FES system and transforming core advantages. FES is a business system for the efficient management of enterprises. Such system has been evolving through practice and is aimed at building the core competitiveness of a long-standing enterprise and cultivating talents with Fosun’s values of entrepreneurship. It can help enterprises to foster a corporate culture that encourages them to take up the challenge of meeting high expectations and actively expose problems in the business process, find the root cause of problems through FES tools, formulate effective countermeasures, improve problem-solving capabilities, and eliminate problems through standardized process systems. Such system helps enterprises achieve sustainable and healthy multiplier growth. In the first half of 2022, FES has yielded remarkable results. In particular, 20 FES tools have been refined and certified, and over 200 FES experts at veteran, senior, junior and other levels have been certified, with more than 1,200 improvement projects in progress in the first half of the year, and the value of cost reduction and efficiency enhancement of completed projects exceeding RMB1 billion. The FES management system has been promoted and applied in Fosun’s various businesses. For

⁶ Investment of technology and innovation includes scientific research investment (expensed and capitalized), but excludes digitalization expenses.

example, Club Med Joyview utilizes the VSM⁷ tool to optimize the process of opening resort business, reducing the preparation time for opening business from nine months to six months and enabling the opening of multiple shops at the same time; Fosun’s various businesses also develop marketing strategies and tiered tactical plans and action plans with the Growth Room tool in order to track their business performances and ensure that they can meet performance targets.

Adhering to the original aspiration to drive sustainable development

The Group has always adhered to the values of “Self-improvement, Teamwork, Performance and Contribution to Society”, and the aspiration of developing business for good with a customer-oriented focus. As a participant in the United Nations Global Compact (“**UNGC**”), after thirty years of operations, the Group fully supports the ten principles of UNGC in the areas including human rights, labor, environment and anti-corruption, relentlessly integrating such principles into Fosun’s ESG strategies, and actively engaging our member companies in the implementation of ESG strategies. In order to further strengthen our sustainable development management, the Company has set up ESG Executive Committee and ESG Management Committee under the ESG Board Committee for supervision over ESG work in pursuit of “maintaining steady and sustainable growth”. In the course of continuous development, Fosun has leveraged its increasingly sophisticated business ecosystem to actively promote community development, improve people’s livelihood and social welfare by fighting against the pandemic, assisting in fighting against malaria in Africa, providing flood relief, running the Rural Doctors Program, and fostering education, culture and entrepreneurship. Moreover, the Group also made a commitment to the society in 2021 – “to achieve emission peak by 2028 and carbon neutrality by 2050”, and contributes to the 1.5°C target of *Paris Agreement* by developing effective strategies for mitigating and adapting to climate change.

The Group has received strong recognition from professional institutions around the world for its excellence in ESG. As at the end of the Reporting Period, the Company had an MSCI ESG rating of AA, and it was the only conglomerate in Greater China with an MSCI ESG rating of AA, and was selected as a constituent of the MSCI CHINA ESG LEADERS 10-40 index. It received a rating of A in the Hang Seng Sustainability Index. Its FTSE Russell ESG rating and S&P CSA Score were also higher than the industry average, significantly ahead of the domestic market. Moreover, Fosun International has been included in the FTSE4Good Index Series for the first time. The Company was also selected as one of the constituents of the

⁷ VSM: Value Stream Mapping

Hang Seng ESG 50 Index (Top 50 Mid-Large Cap), and was included in Hang Seng Corporate Sustainability Benchmark Index for two consecutive years.

HEALTH SEGMENT

The Health segment of the Group focuses on the ecosystem of pharmaceutical business (Fosun Pharma, Shanghai Henlius and Gland Pharma), devices and diagnosis business (Sisram Med) and the business of healthcare services and products (Fosun Health), and adheres to the “4 IN” strategy (Innovation, Internationalization, Integration, Intelligentization) to continuously improve its product competitiveness and brand value. In recent years, with the evolution of social development and population aging, innovative drug research and development, innovative medical devices and medical diagnostics are opening up development opportunities, and the demand for quality medical products and services has increased significantly. At the same time, with the deepening of China’s medical and health system reform, new policies such as centralized drug procurement speed up the process of reducing deficit in medical insurance funding, thus bringing a revolutionary challenge to the industry. The Group will continue to upgrade its innovation, integration and internationalization capabilities. Meanwhile, it will build a medical-grade, one-stop Fosun health ecosystem for all scenarios on the C-end, as well as a matrix of diverse, distinctive and innovative products on the M-end.

Fosun Pharma is a global pharmaceutical and healthcare group rooted in China that is driven by innovation. Its direct operations include pharmaceuticals, medical devices and medical diagnosis, and healthcare services, and has branched out into the wholesaling and retailing of pharmaceuticals by taking an equity stake in Sinopharm. Putting patients first and orienting itself towards clinical needs, Fosun Pharma enriches its innovative product pipeline by adopting a model of diverse and multi-level cooperation which encompasses independent R&D, product development through cooperation, introduction of products under franchise and in-depth incubation. Fosun Pharma has built and developed technology platforms for small molecule innovative drugs, antibody drugs and cell therapy for key diseases and areas such as tumor and immune modulation, metabolism and alimentary system, and central nervous system. It also actively explores cutting-edge technologies and fields such as RNA, antibody-drug conjugate (ADC), gene therapy and targeted protein degradation to enhance innovation capabilities. Under the strategic guidance of “4 IN”, Fosun Pharma is striving to become a first-class enterprise in the global pharmaceutical and healthcare market. In addition, relying on the open-style R&D ecology, a forward-looking international layout, a systematic commercialization team and years of domestic industry experience and global channel

network, Fosun Pharma has become the preferred domestic partner of world-renowned multinational pharmaceutical companies. Fosun Pharma's industry-leading two-way licensing capability helps maximize the value of self-developed products and partnered innovative products, and accelerate the R&D and transformation of innovative technologies and products. With accumulation of experience over the years at its operations in China, Fosun Pharma has become a trusted domestic partner of Intuitive Surgical, Kite Pharma, Amgen, Organon and various other world-leading companies and work with them to promote innovative products that benefit more Chinese patients. Fosun Pharma will continue to seek more opportunities to cooperate with world-leading pharmaceutical enterprises in improving products' accessibility and affordability to satisfy the unmet clinical needs of patients worldwide.

Shanghai Henlius is a global innovative biopharmaceutical company dedicated to providing affordable, high-quality biomedicines to patients worldwide, with products covering oncology, autoimmune diseases, ophthalmic diseases and other areas. Since its establishment in 2010, Shanghai Henlius has built an integrated biopharmaceutical platform with efficient and innovative core capabilities across the entire value chain of the industry that encompasses R&D, manufacturing and commercial operations, and established comprehensive and efficient global innovation centers. The production facility in Xuhui, Shanghai has also received GMP certification in China and the EU. Shanghai Henlius is stepping up innovation and transformation, and continues to build up a reserve of differentiated innovative products in the pipeline, thereby enhancing its global product development capabilities, to evolve from Biotech model to Biopharma model that is more scaled up and competitive in the market.

Sisram Med, a global consumer wellness group, is deeply rooted in the global medical aesthetics industry for over two decades, specializing in harnessing natural energy sources for the treatment of aesthetics as well as medical clinical indications. Sisram Med's products and services are featured in the leading surgical, medical and beauty clinics around the world, treating dozens of millions of consumers worldwide. Sisram Med's vast products and treatments portfolio is constantly expanding, ranging from hair removal, skin rejuvenation, acne and acne scars, body & face contouring, pigmentation & skin resurfacing, fat grafting, dermal facial fillers, skin tissue remodelling injectables, personal care, aesthetics and digital dentistry and more. Its wellness ecosystem provides a diverse product portfolio and builds a customer-centric brand. Its businesses include medical aesthetic equipment, injectables, aesthetic dentistry and personal care, etc. The sales and distribution network of Sisram Med covers more than 90 countries/regions around the world.

Gland Pharma is one of the largest and fastest growing companies specializing in generic injectables in India. Its main products include: cardiac (Enoxaparin Sodium), hematological system (Heparin Sodium), anti-infective (Vancomycin, Caspofungin, Daptomycin, Micafungin, Remdesivir), central nervous system (Dexmedetomidine, Rocuronium Bromide), and other injections. Over the years, Gland Pharma has grown from a contract manufacturer of small molecule liquid parenteral products to one of the largest and fastest growing companies specializing in generic injectables in India, with a global presence in more than 60 countries. With eight manufacturing sites in India, Gland Pharma continues to strengthen its international production capacities. Meanwhile, Gland Pharma is continuing to invest in R&D and manufacturing capabilities, strengthen vertical integration, expand API production capacity to reduce dependence on outsourced APIs, and accelerate growth through mergers and acquisitions to branch out into new businesses, including complex technology product platforms (e.g. long-acting/suspension products) and complex API production technologies (e.g. fermentation technologies). During the Reporting Period, Gland Pharma adhered to its strategy of international research and development and insisted its strategy of bringing such pharmaceuticals to the Chinese market.

Building a medical-grade, one-stop health business ecosystem for all scenarios, Fosun Health is committed to becoming a leader in active health management for Chinese family. At present, Fosun Health focuses on medical services, specialized medical treatment and health management, providing users with online and offline integrated and accessible diagnosis and treatment solutions as well as health management services such as consultation and purchase of medicines, health science popularization, physical examination and testing, offline diagnosis and treatment and patient management through the online “Fosun Health” APP, mini programs, and offline medical institutions in China’s five economic belts, namely the Greater Bay Area, the Yangtze River Delta, the Jing-Jin-Ji (Beijing-Tianjin-Hebei), Central China and Chengdu-Chongqing.

HAPPINESS SEGMENT

The Group targets the consumption needs of family customers in the happiness aspect. Through the twin-driver strategy of “profound industry operations + industrial investment”, it builds a globalized happiness ecosystem covering the whole value chain of the industry. Centering on brand consumption, tourism and leisure, the Group actively organizes teams of people, arranges for venues and creates goods to meet customers’ needs directly. The platforms for brand consumption business include Yuyuan, Lanvin Group and Fosun Sports, which engage in such businesses as jewellery and fashion, liquor and spirits, C-end platforms,

fashion brands, food, catering, beauty and health, sports, cultural business and pet care. Meanwhile, FTG is the platform for the tourism and leisure business, engaging in such businesses as the operation of tourism destinations, resorts, hotels, content services and solutions.

Yuyuan is one of the earliest witnesses, participants and builders of China's capital market. After the completion of major asset restructuring in 2018, Yuyuan became the flagship platform of Fosun's Happiness segment. Leveraging the Group's global platform and resource empowerment system, Yuyuan is gradually focusing its strategic vision on family customers, and continues to develop the "1+1+1" strategy (i.e. running "family happiness consumption industry + urban commercial landmarks + online and offline member service platforms"). At present, Yuyuan promotes the priority concept of "lifestyle with oriental aesthetics", adheres to the strategy of developing business with the twin drivers of industry operations and industrial investment, and owns 18 Chinese time-honored brands and a number of leading brands, as well as a number of globally well-known brands, including Songhelou (松鶴樓), Laomiao (老廟黃金), AHAVA and DJULA, etc. Yuyuan will continue to accelerate the process of building up its global business presence, popularize the concepts of lifestyle with oriental aesthetics, and aspires to develop itself into the world's first-class group in the family entertainment and consumption industry.

As an important part of "happiness consumption", "a bottle of good liquor" is also a catalyst for the maturation of the Group's ecosystem of businesses oriented towards the needs of families worldwide. Since the Group invested in the spirits business, it has continued to drive its strategic business development and build up its ecosystem of resources, boosting consistently sales in key markets across China.

Shede Spirits, an important member of the Group's liquor and spirits businesses, is principally engaged in the design, manufacture and sales of liquor and spirits products, with "Shede" (舍得) and "Tuopai" (沱牌) as its core brands and cultivated brands such as "Tianzihu" (天子呼), "Tunzhihu" (吞之乎) and "Shebude" (舍不得). In recent years, Shede Spirits has pressed ahead with a "dual branding strategy", a "classic liquor strategy", a "strategy of appealing to the youth" and an "internationalization strategy", focusing on improving brand awareness, actively increasing market share, striving to achieve the strategic goal of "becoming the most culturally distinct, benchmark enterprise in the ecosystem of brewing businesses, and building the No. 1 brand in the classic liquor and spirits category".

As a liquor and spirits enterprise controlled by the Group, Jinhui Liquor owns two brands, namely “Jinhui” and “Longnanchun” (隴南春). Leveraging the good ecological environment, advanced technique combining traditional processes and unique technology and other advantages, Jinhui Liquor continuously improves product quality and expands the market. Its marketing network has expanded from north-western China to eastern China, and is gradually building a national brand, striving to achieve the strategic goal of “ranking among the top ten liquors in China, creating a famous liquor brand in China, and building a large liquor brewing base in China”.

FTG is a global leader in family leisure and tourism and is an integral part of the Happiness segment. FTG covers three major business areas: resorts and hotels, tourism destinations, and services and solutions in various tourism and leisure settings. The resorts and hotels business consists of Club Med, a French-based all-inclusive leisure and vacation experience resort, Casa Cook, a boutique resort, Cook’s Club, a new-generation trendy resort, and other brands. During the Reporting Period, with FTG’s continuous development both locally and globally, FTG opened Changbaishan resort, Marbella resort and Thousand Islands Lake resort. Its tourism destinations include Atlantis Sanya, a one-stop destination for entertainment, leisure and integrated travel and vacation, FOLIDAY Town, a comprehensive international leisure and vacation destination, and Albion, a professional operator of upgraded scenic resorts and other brands. With the acquisition of Thomas Cook, one of the world’s oldest travel brands, and the re-establishment of the Thomas Cook digital platforms in China and the United Kingdom, FTG’s services and solutions in various tourism and leisure settings segment are now directly connected to its customers.

WEALTH SEGMENT

The Group’s Wealth segment mainly consists of financial services with insurance as the core business. On the basis of achieving synergy between insurance and industrial asset allocation, it leverages the Group’s profound industry operations capability and global investment capability to build an ecosystem of its global asset management businesses to help the Group’s Health, Happiness and Intelligent Manufacturing segments enhance their operations.

The Wealth segment is divided into two major business segments, namely insurance and asset management. The insurance business includes overseas and domestic insurance businesses, with major member companies including Fosun Insurance Portugal, Peak Reinsurance, and Pramerica Fosun Life Insurance. The asset management business covers asset management (investment) and asset management (property). Asset management (investment) includes

Fosun Capital, Fosun RZ Capital, HAL and BCP. The asset management (property) business covers comprehensive real estate projects in China, Asia Pacific, Europe and the Americas, including such asset types as residential properties, office buildings, commercial properties, hotels, infrastructure and logistics facilities, etc.

Fosun Insurance Portugal is a global operator in the Portuguese insurance market, covering the sale of products in all key lines of business and benefiting from the largest and most diversified insurance sales network in Portugal, including numerous exclusive and multi-brand agents, brokers, own branches, internet and telephone channels and a strong distribution system with the post office and Caixa Geral de Depósitos S.A., the leading Portuguese bank. Its international business covers eleven countries, with products distributed in the four continents of Europe, Asia, Africa and America.

Authorized by the Insurance Authority of Hong Kong under the *Insurance Ordinance (Cap. 41)*, Peak Reinsurance is a global reinsurer that offers comprehensive and extensive products and services encompassing both property & casualty (P&C) and life & health (L&H) reinsurance. Peak Reinsurance strives to provide clients around the globe with innovative and tailored reinsurance, risk management and capital management solutions.

Pramerica Fosun Life Insurance is a joint venture established by the Group and The Prudential Insurance Company of America. With the approval of the regulatory authority, it was formally established in September 2012 and both shareholders hold 50% equity interests in the joint venture. The businesses of Pramerica Fosun Life Insurance include life insurance, health insurance, accident insurance, and reinsurance business of the above-mentioned businesses.

Established in 2007, Fosun Capital is an equity investment and management company wholly owned by the Group. It is a leading private equity investment institute in the industry with focuses on four major areas: new materials and intelligent manufacturing, digital economy and broad consumption, healthcare, and next-generation information technology. In the past 15 years since its establishment, Fosun Capital has launched and managed a number of assets, including fund of funds, private equity investment funds, industry investment funds with listed companies as investees and other types of equity investment funds.

Fosun RZ Capital is a global venture capital platform of the Group focusing on new technology, new energy and new fields in overseas markets, which is also one of the investment institutions with the richest industrial resources in China. Concentrating on

investment in high-growth, high-tech companies in major economic growth regions worldwide for a long time, Fosun RZ Capital has developed an influential ecosystem for innovation at globalized industries.

HAL is a leading private bank in Germany with a business focus on managing, preserving, serving and trading clients' assets. HAL adopts diverse and asset-light business models for running four core businesses, namely asset servicing, private and corporate banking, investment banking and asset management.

BCP is a Portuguese bank that puts people and institutions first, providing comprehensive financial services for both individuals and corporations in markets where it operates. It mainly provides commercial banking products and services for individuals and corporations, and also provides such complementary services as investment banking and private banking services. BCP not only is the largest private bank in Portugal but also has been strengthening its position in the emerging markets in Europe and Africa, especially in Poland, Mozambique and Angola, which have close historical connections to Portugal. BCP also owns a leading digital bank called "ActivoBank".

INTELLIGENT MANUFACTURING SEGMENT

The Group's Intelligent Manufacturing segment, which mainly consists of the steel and mineral resources businesses is actively expanding into high value-added extension businesses in technology such as those engaging in industrial internet and new materials development. It is also strategically deploying resources to develop the business of equipment and core components for intelligent mobility. In a cyclical boom in the global commodity trade, the Group's steel and mineral resources businesses, represented by Nanjing Iron & Steel and Hainan Mining, have continued to realize rapid growth. Meanwhile, as the technology industries, which is best represented by the new energy vehicle industry, are experiencing a boom, other companies in the Group's Intelligent Manufacturing segment are expected to reap benefits from the industry's rapid development.

Through years of continual investment in developing long-material special steel products and high-end medium and thick plates products, Nanjing Iron & Steel has established advantages in the fields of new energy, oil and gas equipment, ships and offshore engineering, auto parts, construction machinery, bridges and other fields. By upgrading the "Industry Operations + Industrial Investment" strategy, Nanjing Iron & Steel has built an industrial chain ecosystem with mutual empowerment and compound growth centred on new steel materials in order to

focus on industrial development and value growth. In particular, industry operations focus on the “four elements and one chain” (i.e. the “four elements” comprising new materials, environment, intelligent manufacturing and industrial Internet, and the “one chain” extending from upstream to downstream industrial chains) for precise development and targeted breakthroughs, which strengthen organic business growth and core capacity building; industrial investment adopts the CVC (corporate venture capital) model, strengthens the optimization and synergy of the industrial value chain, and seeks high-quality investment in emerging sectors to strengthen its portfolio for layout planning.

Hainan Mining continued to enhance its core business and bolster its industry operations, investment and financing capabilities. During the Reporting Period, Shilu iron field and ROC under Hainan Mining continued to reduce costs and enhance efficiency through lean management. In June 2022, Hainan Mining announced that the project (Phase I) with an annual battery-grade lithium hydroxide production capacity of 20,000 tonnes will be located in Yangpu Economic Development Zone, and the implementation of the project will be accelerated. In the future, Hainan Mining will continue to seek opportunities for investment in merger and acquisition of clean energy projects that enable it to achieve long-term growth, such as upstream resources of new energy and natural gas. Moreover, during the Reporting Period, Hainan Mining launched an equity incentive plan for the first time with participants of 137 directors, senior executives and core management personnel, which can help Hainan Mining attract and retain outstanding talents.

Wansheng focuses on the R&D, production and sales of functional fine chemicals. It thoroughly develops the phosphorus-based flame retardant business, and is a leader of the world’s phosphorus-based flame retardant industry. Considering the foundation of its existing businesses, the resources of Nanjing Iron & Steel’s ecosystem of businesses, and the development trend of the chemical industry, together with its own current business volume and its plan for development, Wansheng classifies its future development into three categories of business segments, namely “core businesses” such as the polymer additives business, which will keep consolidating its foundation and growing stronger and larger; “developing businesses” such as the amines and daily chemical raw materials businesses which are gradually optimizing their product portfolio, expanding market shares, and striving to become leading functional daily chemical raw materials-producing enterprises in China; and “strategically important businesses” which include the new energy materials business, electronic chemicals business and biotechnology business, and will continue promoting technological innovation, step up investment in R&D, build up their business presence with foresight and seek development opportunities based on existing advantages and resources in

their ecosystem of businesses. In the future, Wansheng will endeavor to become a “globally leading supplier of functional new materials” who will drive its own development with a low-carbon-emission approach and innovation.

TARGET FOR 2022

The year of 2022 marks the 30th anniversary of the founding of Fosun. After years of hard work and accumulation of experience, Fosun has established its four major business segments of Health, Happiness, Wealth and Intelligent Manufacturing, with business presence in over 30 countries and regions. It has built strong business fundamentals and great potential for further development. Against the background of the protracted and recurrent COVID-19 pandemic, the complex and ever-changing macroeconomic situations at home and abroad as well as the turbulent geopolitical landscape, the Group will give full play to its capabilities in the globalization, technology innovation, ecosystem of business and FES, adhere to the development strategy based on the twin drivers of “profound industry operations + industrial investment”, and fulfill its social responsibility with its original aspiration of “Contribution to Society” so as to achieve stable and sustainable development.

MANAGEMENT DISCUSSION & ANALYSIS

BUSINESS REVIEW

As at the end of the Reporting Period, equity attributable to owners of the parent of the Group amounted to RMB126,838.3 million, representing a decrease of 3.2% compared to the end of 2021. During the Reporting Period, profit attributable to owners of the parent of the Group amounted to RMB2,697.0 million, representing a decrease of 32.6% compared to the same period of 2021.

As at the end of the Reporting Period, total assets of the Group amounted to RMB849,685.3 million, representing an increase of 5.4% compared to the end of 2021.

During the Reporting Period, the revenue of the Group amounted to RMB82,891.6 million, representing an increase of RMB12,448.7 million, or 17.7%, compared to the same period of 2021. From the perspective of product lines, during the Reporting Period, revenue of pharmaceutical, devices and diagnosis, and healthcare services and products subsectors of the Health segment represents 61%, 17% and 22% of the total Health segment revenue of the Group, respectively; revenue of brand consumer and tourism and leisure of the Happiness segment represents 79% and 21% of the total Happiness segment revenue of the Group, respectively; revenue of insurance, asset management (property), asset management (investment) of the Wealth segment represents 69%, 21% and 10% of the total Wealth segment revenue of the Group, respectively; revenue of resources and environment, technology and intelligent manufacturing of the Intelligent Manufacturing segment represents 52% and 48% of the total Intelligent Manufacturing segment revenue of the Group, respectively.

Notes:

1. This simplified corporate structure illustrates the key investments of the Group only. The equity percentage reflects the total direct shareholdings held by the Group, associates, joint ventures and funds managed by the Group as at 30 June 2022. The companies marked in the solid line boxes are consolidated investments of the Group, and the companies marked in the dotted-line boxes are non-consolidated investments of the Group. The companies marked in the shaded boxes are channels for C-end top priority of the Group.
2. The companies marked in the light blue boxes are invested by Fosun Pharma. For specific information, please refer to the disclosure of Fosun Pharma.
3. The companies marked in the light yellow boxes are invested by Yuyuan. For specific information, please refer to the disclosure of Yuyuan. The companies marked in the light orange boxes are invested by FTG. For specific information, please refer to the disclosure of FTG.
4. The companies marked in the light green boxes are invested by Nanjing Iron & Steel. For specific information, please refer to the disclosure of Nanjing Iron & Steel. The company marked in the light purple box is invested by Hainan Mining. For specific information, please refer to the disclosure of Hainan Mining.
5. In July 2022, Fosun Pharma has completed its non-public issuance of A shares and the equity interest in Fosun Pharma held by the Group was diluted to 38.04%.
6. The Company and Fidelidade held 49% and 50.85% equity interest in Luz Saúde, respectively. Therefore, the Group held 92.22% effective equity interest in Luz Saúde.
7. Shanghai Zhuli operates “Fosun Care” brand. The Group through its wholly-owned and non-wholly-owned subsidiaries held 87.35% and 3.55% equity interest, respectively, in Shanghai Zhuli. The Group held 39.99% effective equity interest in such non wholly-owned subsidiary. Therefore, the Group held 88.78% effective equity interest in Shanghai Zhuli.
8. The Group through its wholly-owned subsidiary and a consolidated fund under management of the Group held 16.45% and 3.73% equity interest, respectively, in Sanyuan Foods. The Group held 37.30% effective equity interest in such fund. Therefore, the Group held 17.84% effective equity interest in Sanyuan Foods.
9. The Company and its wholly-owned subsidiary held 29.77% equity interest in BabyTree, and Fidelidade held 0.14% equity interest therein. Therefore, the effective equity interest held by the Group in BabyTree was 29.88%.
10. Yuyuan held 38% equity interest in Jinhui Liquor; therefore, the Group held 26.02% effective equity interest in Jinhui Liquor.
11. Yuyuan held 70% equity interest in its joint venture, Sichuan Tuopai Shede Group Co., Ltd., which held 30.33% equity interest in Shede Spirits.
12. The Group through its two subsidiaries held 28.97% equity interest in Bohe Health, and Yuyuan through its wholly-owned subsidiary held 0.88% equity interest in Bohe Health. Therefore, the Group held 28.71% effective equity interest in Bohe Health.
13. The Group through its 51%-owned subsidiary held 98.12% equity interest in St Hubert SAS. Therefore, the Group held 50.04% effective equity interest in St Hubert SAS.
14. In April 2022, the Group entered into an agreement with an independent third party to sell the 100% equity interest in AmeriTrust. As at the end of the Reporting Period, the above transaction has not been completed.
15. Shanghai Insight Investment Management Limited exclusively uses “Fosun RZ Capital” brand.
16. In March 2022, the Group acquired 50% equity interest in BFC. As at the end of the Reporting Period, the Group held 100% equity interest in BFC.
17. The Group held 59.12% equity interest in Nanjing Iron & Steel through Nanjing Nangang, a joint venture of the Group.
18. The Group held 59.07% equity interest in Easun Technology through its wholly-owned subsidiaries and consolidated funds under its management. Therefore, the Group held 48.42% effective equity interest in Easun Technology. In addition, the non-consolidated entities in which the Group participated in the investment held 24.63% equity interest in Easun Technology.
19. The Group through its wholly-owned subsidiary and a consolidated fund under management of the Group held 16.30% and 2.12% equity interest, respectively, in JEVE. The Group held 22.14% effective equity interest in such fund. Therefore, the Group held 16.77% effective equity interest in JEVE. In addition, the non-consolidated entities in which the Group participated in the investment held 31.53% equity interest in JEVE.

HEALTH

The revenue and profit attributable to owners of the parent in the Health segment during the Reporting Period were as follows:

Unit: RMB million

	For the six months ended 30 June 2022	For the six months ended 30 June 2021	Change over the same period of last year
Revenue	23,366.6	19,282.0	21.2%
Profit attributable to owners of the parent	286.9	1,214.8	(76.4%)

During the Reporting Period, the revenue of the Health segment amounted to RMB23,366.6 million, representing a year-on-year increase of 21.2%. Profit attributable to owners of the parent of Health segment amounted to RMB286.9 million, representing a year-on-year decrease of 76.4%. The increase in revenue of the Health segment was mainly attributable to the product sales growth of Fosun Pharma. The decrease in profit of the Health segment was mainly attributable to price decrease of financial assets such as BNTX shares as compared with the end of 2021.

Fosun Pharma

As at the end of the Reporting Period, the Group held 39.63% equity interest in Fosun Pharma.

During the Reporting Period, the domestic epidemic spread in various provinces and cities, and the production, supply chain, logistics as well as the number of hospital offline diagnosis and treatment faced staged pressure. Fosun Pharma and its subsidiaries (“**Fosun Pharma Group**”) responded to the local pandemic prevention and control policies and actively took countermeasures to ensure production and operation activities were conducted orderly. Fosun Pharma Group secured the production and supply of key drugs such as Han Qu You, Han Li Kang and Yi Kai Da as well as anti-epidemic materials such as nucleic acid test kits and antigen test kits for COVID-19 during the pandemic through centralized closed-loop management of front-line production personnel, increased supply chain and logistics options and other means, comprehensively assisting the prevention and control of the pandemic by focusing on prevention, detection and treatment of COVID-19.

During the Reporting Period, the revenue of Fosun Pharma Group amounted to RMB21,275 million, representing a period-on-period increase of 26.05%. Net profit attributable to shareholders of the listed company after deducting extraordinary gain or loss amounted to RMB1,862 million, representing an increase of 18.57% period-on-period. Net cash flow from

operating activities amounted to RMB1,820 million, representing a period-on-period increase of 6.66%. Affected by market fluctuation and other factors, the price of shares in BNTX held by Fosun Pharma Group as of the end of the Reporting Period declined as compared with the end of 2021, and the net impact including fair value loss as a result of changes in the share price of BNTX was over RMB1 billion. During the Reporting Period, attributable to the losses from changes in fair value of financial assets held, Fosun Pharma Group recorded extraordinary gain or loss of RMB–308 million, representing a period-on-period decrease of RMB1,220 million. Due to the period-on-period decrease in extraordinary gain or loss, Fosun Pharma Group’s net profit attributable to shareholders of the listed company amounted to RMB1,554 million during the Reporting Period, representing a period-on-period decrease of 37.39%. Fosun Pharma Group continued to increase its effort in R&D. During the Reporting Period, the R&D expenditures amounted to RMB2,399 million, representing a period-on-period increase of 22.77%, among which the R&D expenses amounted to RMB1,818 million, representing a period-on-period increase of RMB256 million or 16.39%.

During the Reporting Period, the pharmaceutical manufacturing segment of Fosun Pharma Group generated revenue of RMB14,271 million, representing a period-on-period increase of 17.18%. The segment results⁸ amounted to RMB1,890 million, representing a period-on-period increase of 39.69%. The segment profit amounted to RMB1,579 million, representing a period-on-period increase of 25.62% (excluding the losses from changes in the fair value of the shares in BNTX and gains from the sales of certain shares). During the Reporting Period, the R&D expenditures in the pharmaceutical manufacturing segment of Fosun Pharma Group amounted to RMB2,062 million, representing a period-on-period increase of 16.04%. Total R&D expenditures in the pharmaceutical manufacturing segment accounted for 14.39% of the revenue from the pharmaceutical manufacturing segment. In particular, R&D expenses amounted to RMB1,491 million, accounting for 10.41% of the revenue from the pharmaceutical manufacturing segment.

Despite the pressure of spreading domestic epidemic, during the Reporting Period, the revenue of the pharmaceutical manufacturing segment maintained continuous growth, with product structure continued to be optimized. The growth was mainly due to: 1) revenue contribution from new products and sub-new products: Comirnaty (mRNA COVID-19 vaccine) continued to be supplied to Hong Kong, Macau and Taiwan. During the Reporting Period, more than 8 million doses were sold in Hong Kong, Macau and Taiwan (more than 30 million doses have been sold since the launch of the vaccine). The pediatric formulation was approved for vaccination for children aged 5 to 11 in Macau and Taiwan region, China in April and May 2022 successively. Han Qu You (trastuzumab for injection) achieved capacity

⁸ Segment results are obtained as segment revenue less cost of sales, selling and distribution expenses, administrative expenses and research and development expenses.

upgrade in May 2022, with a cumulative revenue of RMB813 million in the first half of the year, representing a period-on-period increase of 150.15%. Han Li Kang (rituximab injection) achieved revenue of RMB819 million in the first half of the year. New indication Rheumatoid arthritis (RA) was approved for launch in February 2022. Su Ke Xin (avatrombopag maleate tablets) achieved revenue of RMB360 million in the first half of the year; 2) upon being approved for launch in March 2022, Han Si Zhuang (serplulimab injection) accelerated its market access and quickly gained market recognition; 3) with the normalization of centralized procurement and the continuous control of selling expenses by Fosun Pharma Group, the revenue and profit of Fosun Pharma Group's generic drugs tended to be stable.

Fosun Pharma Group continuously promoted innovation transformation and the development and launch of innovative products. During the Reporting Period, Han Si Zhuang (serplulimab injection), the first self-developed biopharmaceutical innovative drug of Fosun Pharma Group for the treatment of microsatellite instability-high (MSI-H) solid tumors, was approved for launch, and indication Rheumatoid Arthritis (RA) of Han Li Kang (rituximab injection) was approved for launch. FS-1502 (recombinant anti-HER2 humanized monoclonal antibody-monomethyl auristatin F conjugate for injection), MEK1/2 selective inhibitor FCN-159 and other innovative products have successively entered the key clinical/approval stage. Revenue from new products and sub-new products, including but not limited to Comirnaty, Han Li Kang, Han Qu You, Su Ke Xin and Han Si Zhuang, accounted for more than 25% of revenue from the pharmaceutical manufacturing segment.

During the Reporting Period, 2 innovative drugs (indications) and 10 generic drugs (indications) of Fosun Pharma Group have been approved for launch in Chinese Mainland/the U.S.. 1 innovative drug (indication) and 18 generic drugs (indications) have been applied for launch (NDA) in Chinese Mainland. 14 innovative drugs (indications) and 9 generic drugs (indications) have been approved for clinical trials (IND) in Chinese Mainland. In July 2022, Fosun Pharma's subsidiary Shanghai Fosun Pharmaceutical Industrial Development Company Limited* (上海復星醫藥產業發展有限公司) ("**Fosun Pharmaceutical Industrial**"), and Henan Genuine Biotech Co., Ltd.* (河南真實生物科技有限公司) entered into an agreement in relation to the strategic cooperation on, among other things, the joint development and Fosun Pharmaceutical Industrial's exclusive commercialization of Azvudine.

Fosun Pharma Group continuously strengthened its construction of full capacity for global operation. During the Reporting Period, revenue from regions outside Chinese Mainland and other countries amounted to RMB7,592 million, accounting for 35.69% of Fosun Pharma Group's total revenue, representing a period-on-period increase of 4.89 percentage points. Relying on years of domestic industry experience and global channel network, Fosun Pharma Group has become the preferred domestic partner of world-renowned multinational

pharmaceutical companies. Fosun Pharma Group's industry-leading two-way licensing capability helps maximize the value of self-developed products and partnered innovative products. During the Reporting Period, Fosun Pharma Group and Amgen's subsidiary entered into a licensing agreement regarding the exclusive commercialization of its 2 innovative drugs, namely Otezla (apemilast tablets) and Parsabiv (etelcalcetide), in Chinese Mainland (excluding Hong Kong, Macau and Taiwan regions) to further enrich Fosun Pharma Group's innovative product layout in the non-oncology field. Shanghai Henlius, a subsidiary, has successively granted various product licenses to Organon LLC, Eurofarma Laboratorios S.A., Getz Pharma (Private) Limited and its subsidiary Getz Pharma International FZ-LLC and other companies, in order to cover incremental markets with the help of leading international partners.

During the Reporting Period, Fosun Pharma Group recorded revenue of RMB4,035 million from the medical devices and medical diagnosis segment, representing a period-on-period increase of 42.48%. After eliminating the effects from the transfer of the equity interest in Yaneng Biotechnology (Shenzhen) Co., Ltd.* (亞能生物技術(深圳)有限公司) during 2021 and others, the revenue from the medical devices and medical diagnosis segment increased by 66.25% on the same basis, segment results amounted to RMB440 million, which increased by 52.25% on the same basis, and segment profit amounted to RMB699 million, which increased by 19.97% on the same basis. The growth in medical devices and medical diagnosis segment was mainly attributable to: 1) the strong business growth of Sisram Med in major markets, such as North America and Europe; 2) revenue contribution from newly launched products such as COVID-19 antigen test kits; and 3) contribution from sales of anti-epidemic materials.

During the Reporting Period, the revenue from healthcare services segment amounted to RMB2,917 million, representing a period-on-period increase of 58.27%. Excluding the effect of the factors such as the newly acquired Guangzhou Xinshi Hospital Co., Ltd.* (廣州新市醫院有限公司) (the Third Affiliated Hospital of Guangdong Pharmaceutical University* (廣東藥科大學附屬第三醫院)) during the Reporting Period, the segment revenue achieved an increase of 38.42% on the same basis. The revenue growth was mainly benefited from the growth of the online business and the revenue recovery of the hospitals. However, due to the increase in expenses as a result of higher investment in the technology development of the online business and hospitals being affected by the pandemic, segment results during the Reporting Period amounted to RMB-387 million, representing a period-on-period decrease of RMB368 million. Segment profit amounted to RMB-442 million, representing a period-on-period decrease of RMB427 million.

Shanghai Henlius

As at the end of the Reporting Period, the Group held 58.96% equity interest in Shanghai Henlius.

Shanghai Henlius has strong global product commercialization capability. In order to achieve continuous growth in sales scale of products, Shanghai Henlius has an experienced commercialization team covering five major segments, namely market promotion, channel management, pricing and market access, domestic sales and strategic planning. As at the end of the Reporting Period, the commercialization team employed more than 800 employees in total. With a solid new drug pipeline and a rapid clinical advancement strategy, as of 13 August 2022, being the latest practicable date for the issuance of the 2022 interim results announcement of Shanghai Henlius, 5 products (13 indications) of Shanghai Henlius have been successfully marketed in Chinese Mainland (excluding Hong Kong, Macau and Taiwan region of the PRC), 1 product has been successfully marketed in Europe and Australia, and new drug application for 3 indications of 2 products have been accepted in Chinese Mainland. In March 2022, PD-1 monoclonal antibody product HANSIZHUANG (漢斯狀®), a core innovative product self-developed by Shanghai Henlius, was conditionally approved by the NMPA. Meanwhile, Shanghai Henlius also established global cooperation with several internationally renowned partners for HANLIKANG (漢利康®), HANQUYOU (漢曲優®), HANDAYUAN (漢達遠®), HANBEITAI (漢貝泰®), HLX11 and HLX14, obtaining remarkable achievements in internationalization for self-developed products. During the Reporting Period, core products continued to expand its sales, and Shanghai Henlius recorded an operating income of approximately RMB1,289.4 million, representing a year-on-year increase of 103.5%.

During the Reporting Period, based on clinical needs, Shanghai Henlius has orderly organized the development of innovative products. As at 13 August 2022, Shanghai Henlius has carried out a total of more than 20 clinical trials for 13 products and 12 combination therapies in an orderly manner in various countries/regions. As at the end of the Reporting Period, Shanghai Henlius has established a global product development team with more than 400 staff. During the Reporting Period, Shanghai Henlius recognized R&D expenses of approximately RMB827.4 million, representing an increase of approximately RMB88.1 million or approximately 11.9% compared with RMB739.3 million in the same period in 2021.

As at the end of the Reporting Period, Shanghai Henlius with a total commercial production capacity of 48,000L has fully supported the commercialization needs of domestic and overseas approved marketing products. During the Reporting Period, the Songjiang First Plant, in which the drug substance west line and east line (with a total production capacity of

24,000L), drug product line and packaging line for the production of HAN QU YOU, has passed the drug GMP compliance inspection and it has a quality management system that meets the requirements of China's GMP regulations. In May 2022, HAN QU YOU for production site change, production process optimization and production scale expansion of drug product etc. was approved by the NMPA. The Songjiang First Plant was approved to commence commercial production of HAN QU YOU under the optimized new production process in Chinese Mainland. Besides, during the Reporting Period, the Songjiang First Plant has passed certification by Qualified Person (QP) from EU, indicating that the Songjiang First Plant and its supporting quality management system meet the requirements of EU's GMP regulations. As at the end of the Reporting Period, Shanghai Henlius' production capacity of 96,000L was under construction, and it is expected to reach a total production capacity of 144,000L in 2026, with an aim to gradually improve and enhance large-scale commercial production capacity based on a sound quality management system, so that it can expand capacity and improve economic cost-effectiveness while maintaining high quality standards.

Gland Pharma

Established in 1978, Gland Pharma is one of the largest and fastest growing, generic injectables manufacturing companies in India. In 2003, its flagship sterile injection plant in Hyderabad, India, with multiple delivery formats and production capabilities, received its first approval from the U.S. Food and Drug Administration (FDA). Gland Pharma has a consistent compliance record and its manufacturing facilities have been approved by regulatory authorities of various countries around the world, including FDA (US), MHRA (UK), TGA (Australia), ANVISA (Brazil), AGES (Austria) and BGV (Germany).

Gland Pharma has a presence in the U.S., Canadian, European, Australian and Indian markets. In addition to these markets, Gland Pharma has also strategically increased its business presence in the "Rest of the World" (ROW) markets to further strengthen its global position. During the Reporting Period, core markets which include the U.S., Europe, Canada and Australia have contributed 72% of the revenue. Rest of the world markets and domestic market of India have contributed 15% and 13% of the revenue respectively. Gland Pharma is also building foundation to enter Chinese markets in collaboration with Fosun Pharma.

Gland Pharma's main products include: cardiac (Enoxaparin Sodium), hematological system (Heparin Sodium), anti-infective (Vancomycin, Caspofungin, Daptomycin, Micafungin, Remdesivir), central nervous system (Dexmedetomidine, Rocuronium Bromide), and other injections.

Fosun Pharma Group acquired approximately 74% equity interest in Gland Pharma in October 2017. Fosun Pharma has business relationships in China and Africa and the acquisition provides Gland Pharma with access to these two core growth markets for injectables. In November 2020, Gland Pharma was successfully listed in India with the largest initial public offering (IPO) of INR64.795 billion in the Indian healthcare industry. As at the end of the Reporting Period, Fosun Pharma Group held 57.87% equity interest in Gland Pharma.

Over the years, Gland Pharma has grown up from a contract manufacturer of small volume liquid parenteral products to one of the largest and fastest growing generic injectables manufacturing companies in India with a global footprint across over 60 countries. Gland Pharma has a track record of supporting the requirements of global pharmaceutical companies for a wide range of injectables through B2B model. Its B2B model covers Intellectual Property led, Technology Transfer and contract manufacturing models. In addition, in the Indian market, Gland Pharma also adopts B2C model through which its products mainly targeted at end consumers such as hospitals, nursing homes and government agencies. The unique and significant advantages of Gland Pharma in the entire pharmaceutical value chain have helped it to achieve exponential growth. Gland Pharma is now exploring to foray into complex injectables and Biologic/Biosimilar CDMO (Contract Development Manufacture Organization) business after delivering excellence over the past four years in small molecule generics injectables.

With its 8 production facilities in India, comprising 4 operational formulations facilities with a total of 28 production lines and 4 API facilities, Gland Pharma continues to strengthen its manufacturing capabilities. The formulation manufacturing facilities consist of 2 multiple sterile injectables facilities, 1 dedicated Penems facility and 1 oncology facility. During the Reporting Period, Gland Pharma adhered to the international R&D strategy, and a number of generic drugs were approved for launch, and the strategy to introduce these products into the Chinese market continued. During the Reporting Period, Gland Pharma's revenue was INR19,420 million, representing a year-on-year decrease of 4.8%. This is primarily due to continued challenges in non-availability of APIs and primary packing materials which caused delay in production during the Reported Period, apart from higher base of previous year due to COVID-19 related sales in last year. (Note: Based on Gland Pharma's financial statements in its presentation currency).

Going forward, Gland Pharma will continue to invest in R&D and production capabilities, strengthen vertical integration and expand API production capacity to reduce dependence on APIs purchased externally. Meanwhile, Gland Pharma will accelerate its growth through mergers and acquisitions, focusing on complex technology and product platforms (e.g. long-

acting/suspension products), complex API raw material production technologies (e.g. fermentation technology), etc.

Sisram Med

As at the end of the Reporting Period, the Group held 71.13% equity interest in Sisram Med.

During the Reporting Period, Sisram Med recorded total revenue of USD174.5 million, an increase of 39.3% as compared with the same period of last year; gross profit of Sisram Med amounted to USD99.6 million, an increase of 39.4% as compared with USD71.5 million for the same period of last year; profit attributable to shareholders of the company was increased by 25.9% to USD20.6 million as compared with the same period of last year; R&D investments increased by 3.5% to USD8.3 million as compared with USD8.1 million for the same period in 2021.

For the energy-based devices business, in March 2022, Sisram Med announced the launch of Alma TED™ and CBD+ Professional Skincare Solution™ for the U.S. market to further optimize its product portfolio. Alma TED™ is an ultrasound-based system with a proprietary tip engineered with the Impact Delivery™ that offers a non-invasive and non-traumatic therapy to address the growing hair loss concerns in the market. CBD+ Professional Skincare Solution™ is the first professional skincare solution that combines the scientific benefits of full-spectrum cannabidiol (CBD), shown to visibly reduce redness and calm the appearance of stressed skin.

For the injectables business, in January 2022, Sisram Med agreed to contribute RMB2.6 million for the investment in Tianjin Xingsiyi Bio-technology Co., Ltd. (“**Tianjin Xingsiyi**”), and will hold approximately 10.4% of the total issued shares of Tianjin Xingsiyi upon completion. Tianjin Xingsiyi will be set up to engage in the R&D, technical services and supply of silk fibroin-sodium hyaluronate composite gel- and facial implant thread-products.

For the home-use personal care business, in March 2022, Sisram Med launched LMNT, a new personal care brand, to tap into the home-use personal care market, which is designed to achieve skin rejuvenation through multiple dimensions such as giving an instant glow and promoting collagen production in the comfort of consumers’ homes.

For the dental business, in March 2022, Sisram Med announced its investment of RMB35 million into Fuzhou Rick Brown Bio-technology Company Limited (“**Fuzhou Rick Brown**”). Immediately upon the completion of the investment, Sisram Med will hold 23.2% of the enlarged equity interest in Fuzhou Rick Brown. Fuzhou Rick Brown is an innovative bio-

glass developer and manufacturer for aesthetic, computer assisted design and manufacturing of restoration material and unique non-invasive veneers. Following the completion of the investment, Sisram Med’s aesthetics and digital dentistry division will distribute the products of Fuzhou Rick Brown in the PRC and international markets.

During the Reporting Period, Sisram Med also expanded its channels. In June 2022, Sisram Med announced the establishment of a direct business channel in the United Kingdom to enable it to respond to product performance and customer feedback more efficiently and effectively, build genuine relationship and customer loyalty with end users, and strengthen its brand image and product competitiveness in the United Kingdom.

Fosun Health

Taking “medical-grade, full-scenario and one-stop health ecosystem” as its vision and “making families healthier and life better” as its mission, Fosun Health provides users with one-stop healthcare services based on medical-grade trust and closed-loop solutions throughout the treatment course, and strives to become a “leader of active family health management”.

While impacts of the COVID-19 pandemic remained serious in the first half of 2022, Fosun Health is committed to exploring an integrated online and offline service model to promote the digital transformation of medical services.

As at the end of the Reporting Period, Fosun Health obtained a total of eight internet hospital licenses, including that of Yinchuan Fosun Internet Hospital, Tianjin Fosun Internet Hospital and six internet hospitals of medical institutions inclusive of Foshan Fosun Chancheng Internet Hospital. Meanwhile, Fosun Health actively facilitated the application for the licenses of internet hospitals in other regions, aiming to connect online and offline scenarios through the establishment of an internet medical platform.

In terms of regional healthcare, Fosun Health reinforced its regional healthcare model and formed a regional healthcare network covering key areas such as the Greater Bay Area and Yangtze River Delta. As at the end of the Reporting Period, the hospitals controlled by Fosun Health had a total of 5,732 authorized beds. The number of registered health management users also increased by 45 times year-on-year. At the same time, Fosun Health continued to focus on enhancing medical disciplines. Foshan Fosun Chancheng Hospital has been accredited as a “14th Five-Year Plan” high-level key medical specialty of Foshan, while Anhui Jimin Cancer Hospital has commenced in-depth cooperation in specialty alliance with the First Affiliated Hospital of Anhui Medical University.

In terms of specialized medical care, Fosun Health entered into digital business cooperation with thousands of hospitals as at the end of the Reporting Period, and there are more than 60,000 collaborating doctors registered and certified on the platform, achieving innovative breakthroughs in the field of specialized diseases such as oncology and chronic kidney diseases. At the same time, by integrating the specialty resources of its hospitals, Fosun Health also established 12 major specialty alliances, including obstetrics and gynecology, cardiology, rehabilitation, orthopaedics and etc., to promote the vertical connection among the specialties of its member hospitals, and build a doctor group model by introducing a team of leading experts in various specialties to improve the level of discipline. During the Reporting Period, top specialists in urology and neurosurgery were introduced into the controlled medical institutions, and the doctor group model was put into operation.

In terms of health management, Fosun Health provides users with health products and services based on its specialized service capabilities and disease journey. Through cooperation with medical institutions, pharmacies, insurance companies and enterprises, Fosun Health reaches out to users precisely and builds an extensive fulfilment network with various medical institutions, health service providers, pharmacies and online platforms to provide one-stop health services based on medical-level trust. As at the end of the Reporting Period, the monthly consultation volume increased by five times compared with the beginning of the year; and the prescription service covers over 40,000 partner pharmacies. Fosun Health joined hands with GuoDa Drug Store and Sinopharm Health Online to innovate payment solutions, initially forming the “healthcare, medicine and insurance” model.

Looking forward to the second half of 2022, the healthcare industry will face both challenges and opportunities. Fosun Health will continue to advance its integrated online and offline service strategy, optimize its products and services, expand the construction of its competitive disciplines, accelerate the internet transformation of healthcare industry, further promote breakthroughs in the field of consumer medical care, and enhance its operation, management and internationalization capabilities. Fosun Health will continue to pay attention to merger and acquisition opportunities of excellent enterprises abroad and at home, so as to support and facilitate the development of digital-based industrial internet.

Fosun Care (Shanghai Zhuli Investment Co., Ltd.)

Fosun Care is a brand covering multi-level health and elderly care services formed by the Group around the vision of “creating happier lives for families worldwide” and promoting innovation and service upgrading in the healthcare industry. Shanghai Zhuli, established in 2014, operates the brand “Fosun Care” and carries out its principal business through several

investees, such as Shanghai Starcastle Senior Living Investment Management Co., Ltd. As at the end of the Reporting Period, the Group held 90.91% equity interest in Shanghai Zhuli. There are four major brands under Fosun Care, namely “Starcastle”, “Xingjian”, “Feng-Lin” and “Xingxiang”, covering elderly care, integrated medical care, rehabilitation and nursing, community health, nursing, digital and intelligent platforms.

Since its establishment in 2012, Fosun Care has insisted on the Eden⁹ philosophy of elderly care and its lean management system, and maintained a refined operation mode of high standard, high quality and high efficiency as always. It has listed in the top 10 of the “Excellent Index · Excellent Performance in the Operation of Elderly Care Institutions” authoritative ranking issued by Guandian Index Research Institute for two consecutive years, demonstrating the comprehensive strength of Fosun Care. As at the end of the Reporting Period, Fosun Care invested in and operated elderly care and nursing institutions in Beijing, Shanghai, Ningbo, Suzhou, Tianjin and other cities, with a total of over 11,000 beds held. In the first half of 2022, revenue of Fosun Care amounted to RMB83.65 million, representing a year-on-year increase of 25.71%.

In terms of ecosystem synergy, Fosun Care proceeded with the healthcare complex project of Chancheng Hospital, which is scheduled to commence operation by the end of 2022. Meanwhile, Fosun Care worked closely with insurance companies. The innovation and marketing of the “large-sum annuity insurance + senior community residency rights” insurance product in cooperation with Pramerica Fosun Life Insurance and AEON Life Insurance Company, Ltd. helped boost large-sum insurance sales, forming a tie-up and synergy between the insurance and health and wellness industries. With the assistance from Fosun Care, Pramerica Fosun Life Insurance acquired more than 900 relevant insurance policies in total during the Reporting Period.

In the future, focusing on “medical care, wellness, healthcare and enjoyment (醫、養、康、享)” as its core businesses, regarding its own asset management and operation capabilities as the cornerstone, and leveraging its “FEB+3C”¹⁰ refined operation system, Fosun Care will build a digital and intelligent 3C system for health and wellness communities, achieve a full-scenario digital platform, promote the health and wellness industry and healthy hive in an all-round way, and put the important role of “healthy hive” in the hive system into practice. At the same time, Fosun Care will push forward the launch of industry funds, contrive the

⁹ Eden refers to the advanced elderly care concept founded by Dr. Bill Thomas. Eden principle means that life is continuous growth.

¹⁰ FEB refers to the acronym of FTE (lean management) + Eden (idea) + Buddy (resident partner), which represents the soft power of Fosun Care’s refined operation. 3C refers to CareBox (full-cycle health management system), CareHome (smart home) and CareRobot (digital and intelligent operation and management terminal), showing the hard power of Fosun Care.

“1+1>2” ecological aggregation effect of “insurance + elderly care”, accelerate the expansion of the track of the health and wellness industry, and seek multiplier growth in the sub-sectors, in order to make consistent efforts into taking lead in the new track of high-quality elderly care, build a new platform for top-trending elderly care, and aim at becoming the benchmark in China’s elderly care industry.

Fosun United Health Insurance

Established in January 2017, Fosun United Health Insurance is the sixth professional health insurance company in China jointly sponsored by the Group and 5 other companies. As at the end of the Reporting Period, the Group held 20% equity interest in Fosun United Health Insurance.

Fosun United Health Insurance always focuses on the track of health insurance, and has developed special health protection products catering to the healthcare needs of Chinese families and enterprises. Since its establishment, Fosun United Health Insurance has provided more than 160 special insurance products and health management services to Chinese families and corporate customers, including 14 products with new sales volume of more than RMB10 million during the first half of 2022.

Fosun United Health Insurance pursues the exploration of a distinctive, professional and ecological business model for health insurance, and is committed to building an O2O comprehensive managed health service platform which integrates online and offline core ecosystems. In the first half of 2022, facing the adverse impacts such as the spread of the COVID-19 pandemic in its major business areas and the slowdown in the growth of the domestic life insurance market, Fosun United Health Insurance made good use of its ecosystem, customer operation, innovation impetus, technological innovation and digital intelligence, and recorded insurance revenue of RMB2,026 million, representing a year-on-year increase of 13%. Fosun United Health Insurance served more than 6.55 million customers in total. During the Reporting Period, the number of new customers exceeded 190,000, and the number of newly registered members of the official client application “Kang You Wei (康有唯)” exceeded 80,000.

In the second half of 2022, regarding “protecting the healthy life of hundreds of millions of Chinese families” as its mission, Fosun United Health Insurance will develop a membership operation system centering on family customers, treat elderly care, rehabilitation, and maternal and child businesses as top priority, and build a comparative advantage in the segmented market competition. Focusing on value enhancement, transformation and development, Fosun United Health Insurance aims at rapid growth in insurance revenue,

further optimization of business structure and steady improvement in profitability, so as to create greater value for shareholders and customers.

HAPPINESS

During the Reporting Period, the revenue and loss attributable to owners of the parent of the Happiness segment were as follows:

Unit: RMB million

	For the six months ended 30 June 2022	For the six months ended 30 June 2021 (Restated)	Change over the same period of last year
Revenue	32,065.4	28,498.4	12.5%
Loss attributable to owners of the parent	(60.4)	(1,226.0)	(95.1%)

During the Reporting Period, revenue of the Happiness segment amounted to RMB32,065.4 million, representing a year-on-year increase of 12.5%, which was mainly attributable to the strong revenue growth of FTG. The loss attributable to owners of the parent of the Happiness segment amounted to RMB60.4 million, representing a decreased loss of 95.1% as compared with the same period in 2021, mainly due to the continuing recovery of FTG's overseas business.

Yuyuan

As at the end of the Reporting Period, the Group held approximately 68.47% equity interest in Yuyuan.

The businesses of Yuyuan mainly comprise of consumer retail and real estates with composite functions. In particular, consumer retail includes jewelry and fashion, cultural catering, food and beverage, Chinese fashion watches, and beauty and health, etc..

During the Reporting Period, Yuyuan was affected by the resurgence of the COVID pandemic. Yuyuan's revenue fell by more than 18.8% year-on-year in the second quarter, dragging down its interim performance. Yuyuan achieved revenue of RMB22.01 billion in the first half of 2022, of which the sales revenue from the consumption industry increased against the trend, reaching RMB18.62 billion. Since the strategic transformation in 2018, the income structure has been continuously adjusted, and the proportion of consumption industry income has risen to 84.6%.

In June 2022, MSCI announced the 2021 ESG rating results of Yuyuan. By virtue of the substantially improved scores in respect of corporate governance, corporate behavior, green development and other issues, Yuyuan's MSCI ESG rating has been upgraded from BB to BBB, which is MSCI's recognition of its ESG management performance, as well as an affirmation of its long-term investment value.

During the Reporting Period, Yuyuan’s jewelry and fashion business achieved year-on-year growth in operating income and net profit attributable to the shareholders of the parent company. In the first half of 2022, there was a net increase of 290 terminal stores. As at the end of the Reporting Period, the number of chain stores of “Laomiao” (老廟) and “Yayi” (亞一) had reached 4,249; the flagship stores of the lag grown diamond brand LUSANT had been established and the pilot franchised stores of “Guyun” (古韻) series products had been launched. Its jewelry and fashion business is also actively carrying out business model innovation, such as promoting business model innovation and promoting business development + gross profit improvement; supply digitization + flexibility.

At the same time, Yuyuan gave full play to its resource advantages of owning a long-established brand. The chain development strategy of Songhelou Suzhou-style noodle shops was further implemented. In 2018, Yuyuan acquired the time-honored brand “Songhelou” (松鶴樓). In 2019, Yuyuan successfully built a single-store model of Songhelou Suzhou-style noodle shop. In 2020, it piloted chain development of the noodle shop and owned 21 shops in first-tier cities across China. In 2021, 81 Songhelou noodle shops were located in eight cities in China, including Shanghai, Beijing and Shenzhen, etc.. During the Reporting Period, the number of shops under “Songhelou” increased by 12, expanding to new markets such as Tianjin and Wuhan.

Looking forward to the second half of 2022, Yuyuan will take “oriental life aesthetics” concept as its top concept, focusing on consumers, products, and scenarios, collaborate with internal segments, and integrate and coordinate external resources. Under the guidance of the top four committees, Yuyuan will consolidate the building and mechanism guarantee of globalization, ecology, science and technology innovation and FES basic capacity. Focusing on household customers, Yuyuan will focus on increasing consumers. Relying on the advantages of time-honored brand matrix, Yuyuan will accelerate the renewal of time-honored brands, integrate business, travel and culture, and create wider population value, brand value and cultural value.

Jinhui Liquor

Jinhui Liquor is principally engaged in the manufacture and sales of liquor and spirits, and is located in Longnan, Gansu Province, which is known as the “areas south of the Yangtze River in Gansu”. With the corporate mission of “brewing ecological liquor and spirits and transmitting positive energy”, Jinhui Liquor insists on being customer-centric, implementing the two-pronged strategy of “key client operation + deep distribution” with C-end top priority. Jinhui Liquor strives to realize the strategic goal of “shaping a well-known brand that ranks

among the top 10 Chinese brands of liquor and spirits and building a large-scale production base of liquor and spirits in China”. Yuyuan completed the acquisition of 29.99998% equity interest in Jinhui Liquor in August 2020 and further completed the takeover offer for 8% equity interest in Jinhui Liquor in October 2020. As at the end of the Reporting Period, the Group through Yuyuan held 38% equity interest in Jinhui Liquor.

During the Reporting Period, Jinhui Liquor recorded revenue of RMB1,225.8 million, representing a year-on-year increase of 26.1%, with net profit attributable to shareholders of the listed company of RMB2.1 million, representing a year-on-year increase of 13.1%.

During the Reporting Period, as Jinhui Liquor actively participated in pandemic prevention and control and overcame the impact of external uncertainties, its various indicators of production and operation demonstrated steady growth. First, Jinhui Liquor continuously improved its scientific research and innovation mechanism, and strengthened its cooperation with scientific research institutes, universities and expert consultants, in order to improve the quality and output of unprocessed wine through internal and external technology research related to fermentation starter production and brewing. Second, Jinhui Liquor implemented in depth the two-wheel strategy of “key client operation + deep distribution”. It carried out themed activities such as “Famous Liquor into Famous Enterprises” and “Spring Sakura Brewing Tour” to upgrade its key client operation. Third, Jinhui Liquor increased its investment in branding, such as creating a three-dimensional advertising matrix that ran through land and air across 30 cities in 6 provinces in the Northwest China and 19 key cities in the 4 top hubs in East China, so as to complete the brand promotion coverage in the two core development areas of Northwest China and East China, which comprehensively enhanced its brand influence. Fourth, Jinhui Liquor optimized its organization management and advanced the strategic and human resources management consulting projects in an orderly manner, which implemented line management and empowerment to form a transparent, concise and efficient online and offline business process and therefore to improve management efficiency.

Shede Spirits

In January 2021, Yuyuan acquired 70% equity interest in Sichuan Tuopai Shede Group Co., Ltd.* (四川沱牌舍得集團有限公司) (“**Shede Group**”), the controlling shareholder of Shede Spirits, by way of participating in a judicial auction and execution of a judicial ruling, pursuant to which Yuyuan indirectly held Shede Spirits. As at the end of the Reporting Period, Yuyuan held 30.33% equity interest in Shede Spirits through Shede Group.

Since the Group's investment in Shede Spirits, the strategic planning and ecological construction of Shede Spirits have been continuously empowered. Shede Spirits continued to implement the classic liquor strategy, and the quality of classic liquor was further recognized. The number and quality of distributors have improved significantly, and there are more and more loyal consumers. Shede Spirits has continued to expand new channels and the whole channel sales capacity continued to improve. Shede Spirits has continued to strengthen its brand building and brand power continued to be enhanced.

During the Reporting Period, the pandemic posed certain impacts on the end consumption of liquor and spirits products, which were mainly manifested in fewer consumption scenarios in certain regions, restricted product logistics, and difficulty in launching marketing campaigns. Shede Spirits took various measures to overcome such challenges, such as hedging the impacts of the pandemic by expanding sales channels, boosting online sales, accelerating new regional deployment, adding new products and promoting sales for banquets.

During the Reporting Period, Shede Spirits recorded revenue of RMB3,025.2 million, representing a year-on-year increase of 26.5%, and net profit attributable to shareholders of the listed company of RMB835.5 million, representing a year-on-year increase of 13.6%. In particular, the revenue of liquor and spirits reached RMB2,820.7 million, representing a year-on-year increase of 28.6%. In terms of liquor and spirits category, the revenue of the mid-end and high-end products amounted to RMB2,405.9 million, representing a year-on-year increase of 28.2%; while the revenue of the low-end products amounted to RMB414.8 million, representing a year-on-year increase of 31.1%.

During the Reporting Period, by virtue of the effective measures adopted such as strong sales promotion and destocking, the terminal retail prices of Shede series wines effectively increased, and the sales volume of Tuopai strategic single products achieved rapid growth.

In addition, while putting its own pandemic prevention and control measures in place, Shede Spirits also actively undertook social responsibilities by donating money and supplies to the regions affected by the pandemic in China. Meanwhile, Shede Spirits gradually established its ESG governance system to further improve its management capability on environmental, social, corporate governance and other aspects to promote high-quality and sustainable development.

Looking forward to the second half of 2022, adhering to the "one core and four dimensions" strategy for classic liquor, Shede Spirits will continue to strengthen brand construction, optimize the organization management system, focus on strategic products and key cities, vigorously develop high-quality distributors, strengthen market infrastructure, and become top

brand in the category of classic liquor. It will also adhere to implement the intelligent upgrading of production system, continue to improve the ecological industry chain, actively construct projects to expand production capacity, strengthen the reserve and enhance the quality of classic liquor, promote the further implementation of the strategy for classic liquor; and rapidly promote internationalization and C-end top priority, in order to win strategic battles and strive to achieve high-speed growth.

FTG

As at the end of the Reporting Period, the Group held approximately 80.38% equity interest in FTG.

Through its lifestyle proposition, “Everyday is FOLIDAY”, FTG seeks to infuse concepts of tourism and leisure into everyday living. The principal activities of FTG are: (i) resorts and hotels, including Club Med, Club Med Joyview, Casa Cook and Cook’s Club Lifestyle Hotel Collection, etc.; (ii) tourism destinations, including Atlantis Sanya, Taicang FOLIDAY Town, Lijiang FOLIDAY Town, and Albion, etc.; and (iii) services and solutions in various tourism and leisure settings. During the Reporting Period, total revenue of FTG amounted to RMB6,416.5 million, representing a year-on-year increase of 130.7%, and loss attributable to equity holders of FTG amounted to RMB196.6 million, while loss attributable to equity holders of FTG was RMB2,004.8 million for the same period of 2021. FTG maintains a healthy and sound financial position. In the first half of 2022, FTG’s net cash flows generated from operating activities achieved a net inflow of RMB1.32 billion, representing growth of 14% compared to the same period in 2021. As of 30 June 2022, the cash and bank balances were approximately RMB3.4 billion.

Club Med, headquartered in France and founded in 1950, is a world-renowned family centric all-inclusive leisure and vacation service provider. As at the end of the Reporting Period, FTG had sales and marketing operations in more than 40 countries and regions across six continents, and operated 66 resorts.

In the first half of 2022, the business volume of Club Med amounted to RMB5,743.1 million, representing an increase of 336.0% compared with the same period of 2021, recovering to 90.2% of the same period of 2019; the capacity of Club Med increased by 122.3% compared with the same period in 2021, returning to 87.4% of the same period of 2019; the global average Occupancy Rate by Bed of Club Med reached about 59.1%, an increase by 16.5 percentage points from the same period in 2021, and showed a gap of 6.0 percentage points compared to the same period in 2019; the Average Daily Bed Rate was about RMB1,517.4, at constant rate, an increase of about 40.2% from the same period in 2021, representing an

increase of about 19.3% from the same period of 2019. In July 2022, Club Med operated 53 resorts worldwide.

While responding to the rebound in business, FTG also re-adjusted its investments to secure key projects including the future opening, and the maintenance and renovation of its existing resorts. From the beginning of 2022 to the end of 2024, FTG have signed contracts and planned to open 17 new Club Med resorts, of which seven resorts are located in China. Meanwhile, in the first half of 2022, FTG opened Changbaishan resort, Marbella resort and Thousand Islands Lake resort.

Atlantis Sanya, located on the Haitang Bay National Coast of Sanya in Hainan Province, China, officially opened in April 2018. During the Reporting Period, the number of visitors to Atlantis Sanya amounted to approximately 1.5 million; the business volume of Atlantis Sanya amounted to RMB486.9 million, decreased by 41.7% as compared with that of the first half of 2021. In particular, room revenue decreased by 42.4% year-on-year and other operating income decreased by 40.8% year-on-year. The average daily rate by room remained about the same compared with the same period in 2021, and the average occupancy rate decreased by 33.9 percentage points to 46.0%.

In the first half of 2022, with the end of February as the dividing line, Atlantis Sanya showed a divergence in business performance due to the impact of domestic pandemic. During the two months ended 28 February 2022, the pandemic in Chinese Mainland was basically under control. The operation of Atlantis Sanya maintained a dynamic growth momentum thanks to its excellent product competitiveness and the unleashing demand for leisure and vacation. Atlantis Sanya recorded a business volume of RMB362.1 million, a year-on-year increase of approximately 44.3%. During the four months ended 30 June 2022, due to the resurgence of the pandemic in various cities which are the sources of tourists, it recorded a business volume of RMB124.8 million, a year-on-year decrease of approximately 78.6%.

FTG also develops and operates tourism destinations in Lijiang, Yunnan and Taicang, Jiangsu under its own brand “FOLIDAY Town” (復遊城). Lijiang FOLIDAY Town covers land parcels of approximately 695,000 square meters in Baisha town in Lijiang city, Yunnan Province in Southwestern China. In the second half of 2021, Club Med Lijiang resort, Albion Residence FOLIDAY Town Lijiang, and lake camp were put into operation. In the first half of 2022, the business volume of the operating business of Lijiang FOLIDAY Town reached RMB17.8 million.

Taicang FOLIDAY Town covers land parcels of approximately 483,000 square meters in Taicang city, Jiangsu Province in East China. In particular, the capping of the main structure

of the indoor ski domain of “Alps Snow World” (阿爾卑斯雪世界) completed in January 2022, and the installation of snow-making and snowfall equipment has been finished in June 2022. The themed commercial street and Club Med Joyview Taicang resort entered the full construction phase in June 2021. The indoor ski domain, Club Med Joyview Taicang resort and the themed commercial street planned to commence their business in the second half of 2023.

In November 2019, upon the liquidation of Thomas Cook, FTG acquired the centennial travel brand Thomas Cook, and its licensed right, title and interest across most international markets. In July 2020, FTG released its APP in China, the Thomas Cook Lifestyle Platform (“**TC China**”), which is a FTG one-stop scenario-based platform focusing on quality vacation and leisure. In the first half of 2022, the platform had 774,000 monthly active users in average and 49,000 paying users. In the first half of 2022, the business volume of TC China was approximately RMB159.2 million, representing a decrease of 1.4% compared with the same period of 2021. In addition, Thomas Cook online travel agent (“**TC UK**”) was launched in UK in September 2020. Since in the first half of 2022, UK travel restrictions began to lift and holiday travel has been gradually available to more places across Europe, TC UK has seen significant growth with its business volume rising by 570.3% to RMB712.0 million.

WEALTH

The Group's Wealth segment includes two major sectors: Insurance and Asset Management.

INSURANCE

During the Reporting Period, the revenue and profit/(loss) attributable to owners of the parent of the Insurance sector were as follows:

Unit: RMB million

	For the six months ended 30 June 2022	For the six months ended 30 June 2021	Change over the same period of last year
Revenue	15,889.0	15,475.3	2.7%
(Loss)/Profit attributable to owners of the parent	(541.8)	1,415.3	(138.3%)

During the Reporting Period, the revenue of the Insurance sector increased by 2.7% compared to the same period of last year, mainly because of the business growth of Fosun Insurance Portugal. The loss attributable to owners of the parent was RMB541.8 million during the Reporting Period, representing a decrease of 138.3% as compared with the same period of 2021, mainly attributable to the price decrease of financial assets as compared with the end of the same period of 2021.

Note: Financial data of individual insurance portfolio companies presented in this section are based on local general accounting standards applicable to respective regulatory territories, and all quoted numbers are unaudited management information.

Fosun Insurance Portugal

In 2014, the Group established subsidiaries to acquire controlling stakes in Fidelidade, Multicare and Fidelidade Assistência. As at the end of the Reporting Period, the Group owns 84.9892% equity interests in Fidelidade. As a leading participant in the Portuguese insurance market, the platform facilitates business development of the Group in European, African, and Latin American countries.

Fosun Insurance Portugal's positive momentum on the commercial side continued during the first half of 2022, with total premium income amounting to EUR2,630 million, representing growth of 12.8% compared to the same period in 2021. Its total non-life premium (domestic and overseas) benefited from a solid non-life insurance performance in the first half of 2022, which resulted in a 15.8% increase. This increase reflects the strategy outcome to continuously foster a client-focused culture as a key driver of the commercial effort. The Life business grew up by 10.0% during the first half of 2022, compared with the same period in

2021. Its main driver was its on-going repositioning towards non-guaranteed products. As a result, total share in the Portugal local market reached 30.8% in the first half of 2022, a 1.4 percentage point increase compared to the first half of 2021. On the international business, total premium income grew up by 52.6% to EUR697.4 million, on the back of a combination of solid organic growth from all international units, as well as the consolidation of the recently acquired units in Mozambique and Liechtenstein.

During the Reporting Period, Fosun Insurance Portugal's net profit attributable to owners of the parent was EUR100 million. The annualized investment yield was 2.4%. In addition, in the first half of 2022, non-Life insurance combined ratio was 95.8%.

The inaugural issuance of EUR500 million subordinated debt in June 2021 and management's commitment to keep the Solvency II ratio comfortably within the 150%-180% range are part of Fosun Insurance Portugal's balance sheet optimization. The strength of the financial profile was further confirmed by Fitch in December 2021, with investment grade ratings of A (Insurer Financial Strength) and A- (Long-Term Issuer Default Rating).

Besides the current international footprint, Fosun Insurance Portugal took three additional important steps towards the development of its international strategy during the Reporting Period. In December 2021, it acquired 70% of Seguradora Internacional de Moçambique (“SIM”) and the integration of SIM was completed in the first half of 2022. This transaction consolidates Fosun Insurance Portugal's market position in Mozambique, where it operates since 2014. In February 2022, Fosun Insurance Portugal acquired 70% equity interest in The Prosperity Company, which is a digitally-driven insurance company based on a pension wealth management platform with operations in Europe. In June 2022, Fosun Insurance Portugal reached an agreement to acquire remaining at least 40.5% of La Positiva, the third largest Peruvian insurer of which Fosun Insurance Portugal already owns 51%.

Fosun Insurance Portugal received several awards which reinforce its significant brand strength. They include “Escolha do Consumidor 2022” (Highest satisfaction and reputable insurer), “Market Reputation Index 2021” (Most reputable insurance brand), “Superbrands 2021” (Top-of-mind insurance brands in Portugal) and “Reader's Digest Trusted Brands 2021” (Most reputable insurer for the 16th consecutive time).

Fosun Insurance Portugal's sustainability strategy integrates its ESG priorities into material aspects of its activities. Fosun Insurance Portugal has established four principles to guide its ESG effort:

1. Combine economic prosperity with conscious and sustainable business practices;
2. Adapt the product offer to address societal challenges;

3. Promote the transition into an inclusive and ecological society; and
4. Foster a corporate governance structure that enables long-term environmental and social benefits.

Fosun Insurance Portugal social responsibility footprint is driven by impactful initiatives such as Fidelidade Comunidade, promoting sustainability for its employee and for society as a whole; and WeCare, providing further support and care for people throughout their lives. In addition, Fosun Insurance Portugal actively promotes social responsibility with its products and programs. For example, Fosun Insurance Portugal developed the retirement product of PPR 40+ ESG, which combined savings with the improvement of environment and the Vitality Programme, which aims at the promotion of healthy lifestyle.

Fosun Insurance Portugal has developed specific multi-year ESG commitments. For example, Fosun Insurance Portugal will redefine its investment policy based on ESG criteria by the end of 2023 and reassess 100% of the investment portfolio based on ESG criteria by 2025. Regarding product offering, Fosun Insurance Portugal will release 5 to 10 sustainable life and non-life products in the next year and a half and develop ESG solutions in 30% to 50% of the total product offer (or annual premiums) by 2025.

Going forward, Fosun Insurance Portugal will keep focusing on consolidating its position as a key retirement and savings market player with a value proposition that combines strong product line-up and client-friendly distribution channels. In addition, Fosun Insurance Portugal will continue to seek opportunities on international markets to lever existing operations and share best practices across geographies. Finally, its commercial innovation efforts will remain centered in its clients' needs and the use of technology and automation.

Peak Reinsurance

Peak Reinsurance Company Limited (“**Peak Reinsurance**”), a Hong Kong-based global reinsurance company founded in 2012, was jointly established by the Group and International Finance Corporation. In April 2018, a wholly-owned subsidiary of U.S.-headquartered Prudential Financial, Inc. completed the acquisition of a minority stake in Peak Reinsurance Holdings Limited (“**Peak Reinsurance Holdings**”). As at the end of the Reporting Period, the Group held 86.51% equity interest in Peak Reinsurance through Peak Reinsurance Holdings.

As at the end of the Reporting Period, Peak Reinsurance reported gross written premiums of USD1,224 million (first half of 2021: USD773.7million) and net earned premium income of USD774.3 million (first half of 2021: USD778.2 million)¹¹. Additionally, efforts to rebalance

¹¹ Data disclosed are unaudited financial results for the first half of 2022.

the portfolio towards non-proportional business have helped ensure price stability alongside further business development. Since its establishment, Peak Reinsurance has maintained nine consecutive years of growth in premium income.

As at the end of the Reporting Period, Peak Reinsurance maintained a seven-year track record of over 90% of claims settled within five business days. Efficient claims settlement and a client-centric business approach both played a pivotal role in its success.

Supported by improving macro-economic fundamentals, as at the end of the Reporting Period, Peak Reinsurance achieved annualized investment return of 1.6% with investable assets and net assets at USD2.8 billion and USD1.3 billion, respectively. Peak Reinsurance remains very well capitalized with good solvency, as reflected in its credit ratings as at the end of the Reporting Period.

In June 2022, Peak Reinsurance announced the closing of the issuance of a USD150 million 144A catastrophe bond via Black Kite Re Limited, a newly established special purpose insurer in Hong Kong (“**Black Kite Re**”). As part of the transaction, Peak Reinsurance has entered into a retrocession arrangement with Black Kite Re, providing Peak Reinsurance with multi-year risk protection against typhoon risk in Japan. The transaction attracted significant investor interest, allowing for a 100% upside from the initially-announced transaction size. In addition to being the largest and the first 144A catastrophe bond issued from Hong Kong, the transaction is also expected to be the first to utilize the Pilot Insurance-linked Securities Grant Scheme introduced by the Hong Kong insurance authority last year.

Peak Reinsurance’s outstanding achievement has been widely recognized in the industry with strong credit ratings from Moody’s Investor Service (IFSR A3) and AM Best (A-), reflecting Peak Reinsurance’s good brand recognition in the insurance industry, increasingly diversified product portfolio and geographic mix, and solid capitalization relative to risk underwritten. Peak Reinsurance ranked the 27th among Global Reinsurance Groups by S&P Global Ratings in terms of net reinsurance premiums written*.

Pandemics have always been one of Peak Reinsurance’s risk planning scenarios, despite COVID-19 and the disruption it has caused which is unique. Peak Reinsurance’s focus on resilience and agility ensure that there are proper measures and mitigations in place to manage impacts of external factors. Peak Reinsurance’s robust risk management framework and the effectiveness of its business continuity planning have been proved to be the key to the successful response to the onset and on-going impacts of the global pandemic.

Pramerica Fosun Life Insurance

The establishment of Pramerica Fosun Life Insurance marked the Group's debut into the domestic life insurance market. As at the end of the Reporting Period, the Group held a 50% equity interest in Pramerica Fosun Life Insurance.

During the Reporting Period, Pramerica Fosun Life Insurance recorded premium income of RMB1,137.9 million, representing a year-on-year decrease of 27.78%, mainly due to the fact that it insisted on following its "Focusing on Regular-premium Business" strategy, actively reduced its single-premium bancassurance business, and restricted sales of products with low value. Net loss amounted to RMB114.1 million. The annualized total investment yield was 4.41%, and the annualized comprehensive investment yield was 4.13%.

Facing to the unexpected lock-down and pandemic control measures in Shanghai, Beijing and other cities, Pramerica Fosun Life Insurance sticks to its own strategies. It insists on building a team of professional life insurance agents, vigorously invests in ecosystem and technological construction to empower the team to acquire customers and operate and build a comparative advantage. In terms of agent channel construction, Pramerica Fosun Life Insurance actively developed potential high quality customers, facilitating the building of an elite agent team with high income, high productivity and high retention. The average monthly active manpower and the team's productivity indicators were in the forefront of the industry. In terms of technology construction, Pramerica Fosun Life Insurance introduced online policy custody service and referral function. Its online activities continued to boost private sector, creating the second growth curve for online operation. In terms of ecosystem empowerment, Pramerica Fosun Life Insurance deepened its strategic cooperation with Fosun's health care sector, and expanded the reachable customer range by boosting VR Yunyouxingbao (雲遊星堡) and other online activities within the ecosystem, using technological tools. During the Reporting Period, Pramerica Fosun Life Insurance accumulated 938 orders for senior community, and received total initial regular-premium of RMB273.18 million.

In the second half of the year, Pramerica Fosun Life Insurance will continue to adhere to the business philosophy of "Long-term Value Increase" with "Guardian of your uniquely defined future" as its mission and thoroughly implement the strategic path of "Focusing on the Agent Team Building, Focusing on Regular-premium Business, Focusing on the Technology, and Focusing on Ecosystem". It will unswervingly strengthen outstanding teams by the triple measures of "Product Matrix + Health Care Ecosystem + Technology Empowerment". In terms of product system, centering on customer demands, Pramerica Fosun Life Insurance will create a brand image of "Understand your need, Make for your need". In terms of technological operation, Pramerica Fosun Life Insurance will optimize online experience of

the whole policy cycle with the use of big data, thereby realizing whole-process digital management. In terms of institutional development, Pramerica Fosun Life Insurance will strengthen its review on the operations of institutions at different levels, and promote high quality development under the guidance of quality and efficiency enhancement.

ASSET MANAGEMENT

During the Reporting Period, the revenue and profit attributable to owners of the parent of the Asset Management sector were as follows:

Unit: RMB million

	For the six months ended 30 June 2022	For the six months ended 30 June 2021	Change over the same period of last year
Revenue	7,082.5	4,174.6	69.7%
Profit attributable to owners of the parent	2,001.4	995.2	101.1%

During the Reporting Period, the revenue of the Asset Management segment increased by 69.7% year-on-year, which was mainly due to the revenue increase of Asset Management (Property) business. The 101.1% increase in profit attributable to owners of the parent compared to the same period of last year was mainly attributable to the increase in asset value of the Asset Management sector during the Reporting Period.

Fosun Capital

Fosun Capital provides high-quality equity investment and management services to investors such as well-known family funds, pensions, insurance companies, listed companies, large investment institutions and high net wealth individuals domestically and internationally. As at the end of the Reporting Period, the Group held 100% equity interest in Fosun Capital.

As at the end of the Reporting Period, Fosun Capital had invested in over 100 companies, and successfully exited from investments in nearly 50 companies through domestic or overseas listings, equity transfer and other ways. Fosun Capital had accumulated the total of 16 funds under management, with an asset size under management of nearly RMB20 billion.

As at the date of disclosure in this announcement, nine of Fosun Capital's investment companies submitted application for IPO, one of which was successfully listed on the Hong Kong Stock Exchange. Fosun Capital was awarded 11th among the "Top 100 Best Chinese Private Equity Investment Institutions in China of 2021" and 6th among the "Top 50 Best Chinese Private Equity Investment Institutions in China of 2021" by Touzhong.com. In the future, relying on its excellent investment capabilities, high-quality post-investment services

and the Group's strong global industry integration capabilities, Fosun Capital will be able to empower its portfolio companies in terms of business resources and industrial depth and help the companies realize long-term value creation and sustainable development.

Fosun RZ Capital

The vision of Fosun RZ Capital is to become a globally leading industry investment institution, with the aim of generating excellent investment returns and long-term strategic value for the Group. As at the end of the Reporting Period, the Group held 100% equity interest in Fosun RZ Capital.

Fosun RZ Capital has long focused on investment in mid and high-growth and high-tech companies in major economic growth regions worldwide, realizing the strategic plan of “top technology as horizontal while emerging markets as vertical” in seven locations globally. It not only invests in cutting-edge technological innovation in the U.S., Israel, etc., but also spans into high-growth emerging markets such as China and India, creating an influential global industry-wide innovation ecosystem. As at the end of the Reporting Period, Fosun RZ Capital had more than 50 employees in 7 offices around the world. Fosun RZ Capital's global core team has an average of more than 10 years' investment experience.

During the Reporting Period, Fosun RZ Capital completed the filing of the third phase of the RMB fund for science and technology innovation and began its investment. The size of the fund was RMB2 billion, and the total management size of Fosun RZ Capital was nearly RMB10 billion. Fosun RZ Capital was awarded “Top 100 China 2021 Best Venture Capital Institutions” by Touzhong.com, and “Top 100 Chinese Venture Capital Institutions in 2021” by Zero2IPO Group. In the future, Fosun RZ Capital's investment will deepen its involvement in technological innovation and strive to capture more technology-driven investment opportunities. Fosun RZ Capital will evolve together with global outstanding enterprises and maintain empowering the development of the four major business segments of the Group.

Hauck Aufhäuser Lampe Privatbank AG (HAL)

Founded in 1796, HAL is headquartered in Frankfurt with offices in several key German cities such as Munich, Düsseldorf, Hamburg, Berlin and Stuttgart. HAL also has branches in Luxembourg, Dublin and London, a subsidiary in Vienna and a representative office in Paris. As at the end of the Reporting Period, the Group held 99.94% equity interest in HAL. HAL intends to internationalize its product series, and secure new customer groups and thus further strengthen its own market position. An essential element of the bank's future growth strategy is its role as a bridge between the major Chinese and European commercial entities. It aims to

help German companies gain access to the developing Chinese market which is part of the surging Asian market. In the past few years, HAL has established subsidiaries in Shanghai and Nanjing respectively, focusing on the asset management and cross-border investment bank mergers and acquisitions (“M&A”) business.

Despite the headwinds from the global economy and geopolitics, HAL still managed to maintain significant growth in performance in 2022. As of 30 June 2022, HAL’s services and assets under management reached EUR239 billion, an increase of 23% compared to as at 30 June 2021; HAL’s total assets grew to EUR13.8 billion. Meanwhile, compared to the first half of 2021, HAL’s gross revenue increased by 41% to EUR192 million. HAL’s profit before tax fell from EUR30 million in the first half of 2021 to EUR23.7 million in the first half of 2022, mainly due to higher administrative expenses related to the Bankhaus Lampe KG before its consolidation.

Following the completion of the acquisition of Bankhaus Lampe KG in September 2021, upon regulatory approval, the bank merged with Hauck Aufhäuser Lampe Privatbank AG with effect from 1 January 2022. The acquisition included the purchase of all equity interest in such company and also involved a full takeover and integration of all employees, subsidiaries, customers and locations. After the acquisition, HAL’s business unit and regional service capabilities have been expanded, particularly in the private banking and asset management sectors.

In addition, HAL has made significant achievements in the one-stop service of digital assets, from its own crypto capital management company to its custodian function. Starting in February 2022, HAL’s subsidiary Hauck Aufhäuser Innovative Capital, as a capital management company for digital assets, is licensed by the Deutsche Bundesbank. Following the completion of the acquisition of a digital asset custody firm, Kapilendo Custodian AG at the end of March, HAL started to provide professional and semi-professional investors with long-term investment opportunities in leading crypto assets by launching the “HAIC Crypto Native - Advanced Select” fund in June 2022, expanding its product offerings.

HAL’s growth story also gained recognition from the public, and received several awards including “Best Private Bank in Germany 2022”, “Germany’s Most Popular Bank” and “Leading Employers in Germany 2022”.

At the same time, HAL has been proactively promoting to ESG developments and continuously optimizing its corporate governance to fully meet regulatory requirements. It newly established a specialized group ESG department and ESG Committee to ensure consistency with the ESG strategy across all business lines, focusing on current market

developments, regulatory requirements and organizational structure. HAL's extensive activities to put the ESG strategy into practice have also received external attention and an award for "Outstanding Sustainable Engagement".

BCP

In 1985, a group of over 200 shareholders and a team of experienced banking professionals incorporated BCP. During the period from 1995 to 2000, BCP solidified its position in the Portuguese banking market through a series of strategic mergers and acquisitions, and became the largest private bank in Portugal. Since 2000, BCP has been strengthening its position in emerging markets in Europe and Africa, especially Poland, Mozambique and Angola, which have a close economic connection to Portugal. Since 2010, BCP has entered the Chinese Mainland market through its Guangzhou representative office and launched its business activities in Macau with an onshore full banking license. In November 2016, the Group invested in BCP. As at the end of the Reporting Period, the Group held 29.95% equity interest in BCP.

During the Reporting Period, excluding specific items¹², the consolidated core operating profit (net interest income plus net fees and commissions income deducted from operating costs) of BCP amounted to EUR862.2 million, 40.0% higher than EUR615.8 million of the same period of last year. In particular, the core operating profit in Portugal reached EUR419.6 million, which increased by 18.4% as compared to EUR354.4 million of the same period of last year, mainly attributable to its stable income performance and consistent cost control. The core operating profit from business in Poland reached EUR383.1 million, an increase of 76.8% as compared to EUR216.7 million of the same period of last year, mainly due to the increase in net interest income brought by the increase in interest rates in the Polish market. By virtue of the good performance of such core operating profit, although the management of BCP has taken into account the significant uncertainty brought about by the new legislation in Poland, and provided a goodwill impairment of EUR102.3 million for the Polish subsidiary at the consolidated level, net profit attributable to shareholders of BCP still increased by 507.4% to EUR74.5 million as compared with the same period of last year.

As at the end of the Reporting Period, the consolidated total assets of BCP amounted to EUR96,074 million, representing an increase of 5.2% year-on-year. BCP's consolidated loans

¹² Specific items referred to negative impact of EUR6 million in the first half of 2022 and EUR87 million in the first half of 2021, which were fully recognized as staff costs in the activity in Portugal, in both periods. In the first half of 2022, specific items mainly include the distribution of BCP's 2021 results by the employees of BCP, as compensation for the temporary reduction of remuneration, in the amount of EUR6 million. In the first half of 2021, specific items are mainly related with a provision booked to cover the costs related to the current adjustment of headcount carried out by BCP that year, in the amount of EUR81 million.

to customers (gross) amounted to EUR58,653 million, representing an increase of 2.0% year-on-year, mainly due to the growth of the Portugal market. Mortgage and personal loans in Portugal performed well, driving an increase of local customer loans (gross) by 2.7% year-on-year to EUR40,577 million. Under the COVID-19 pandemic, loans under specific credit policies have been gradually reduced. As at the end of the Reporting Period, the total amount of state-guaranteed loans against the COVID-19 pandemic dropped to EUR2,383 million, accounting for only 5.9% of the total local loans.

As a result of continuous monitoring on credit risk and the measures taken to recover non-performing loans in recent years, it should also be noted that the non-performing exposure (NPE) reduced by EUR501 million at BCP's group level, leading to a decrease of the NPE ratio as a percentage of the total loan portfolio from 5.2% as at the end of June 2021 to 4.3% as at the end of the Reporting Period. At the same time, the NPE provision coverage ratio at BCP's group level decreased by 2.1 percentage points year-on-year to 64.5% as at the end of the Reporting Period.

At the same time, BCP's customer growth was outstanding during the Reporting Period. The number of active customers at BCP's group level increased to 6.33 million from 5.99 million at the end of June 2021, of which the number of digital customers increased from 4.04 million at the end of June 2021 to 4.56 million, among which the number of newly acquired customers through mobile terminal was 0.63 million. During the Reporting Period, BCP was awarded "Best Investment Bank 2021 in Portugal" by *Global Finance*, as well as "Best Consumption Digital Bank 2021" in Portugal, "Consumer Choice in Portugal 2021 and 2022" in the "Large Banks" category. ActivoBank was awarded "Customer Choice in Portugal 2022" under the "Digital Banks" category.

Looking forward, the strategic plan of BCP aims to improve the environmental adaptability and risk response capabilities of the bank after the pandemic, continue to promote the five overarching strategic priorities defined for the future, namely talent enhancement, mobile-centric digitization, maintaining growth and solidifying leadership in Portugal, growth in international footprint, and business model sustainability, to enable BCP to recover quickly to accomplish the strategic objectives after the pandemic. BCP presented a new strategic plan accordingly to the market designated "Excelling 2024", setting the priorities and objectives for the new strategic cycle for 2021-2024. The design of the "Excelling 2024" plan was based on BCP's aspiration for the future cycle: to successfully overcome the impact of the pandemic and achieve robust levels of profitability and balance sheet improvement based on superior personalized services and new mobile/digital solutions, accelerating the bank's competitive differentiation in terms of efficiency and customer engagement, and at the same time to

respond to the challenges in sustainable development, especially the risks and opportunities posed by climate change, social impacts, and good social governance.

The Bund Finance Center (“BFC”)

Located at 600 Zhongshan No. 2 Road (E), Shanghai, China, BFC is a benchmark project of the Group’s “Hive City”, and also a landmark of a large-scale all-in-one ecosystem commercial complex in the core area of the Bund in Shanghai. The project embraced its opening on 12 December 2019. The gross floor area (“GFA”) of BFC is over 420,000 square meters. BFC’s principal businesses include (i) office rental business which offers a super-grade-A office building with an occupancy rate of over 98% as at the end of the Reporting Period; (ii) retail business that houses over 200 stores and brands, of which approximately 30 stores are the first of its kind; (iii) catering business that offers an array of high-quality international restaurants, including the legendary Italian restaurant “DA VITTORIO SHANGHAI”, which has won two Michelin stars consecutively; (iv) health business with a fitness club, BFC FITNESS, and high-end medical clinic Zallhui (卓爾薈); (v) art business conducted through Fosun Foundation Art Center (Shanghai). In March 2022, the Group acquired 50% equity interest in Shanghai Fosun Bund Real Estate Company Limited* (上海復星外灘置業有限公司), the project company of BFC. As at the end of the Reporting Period, the transaction was completed and the Group held 100% equity interest in BFC property.

During the Reporting Period, due to the steady performance of office buildings and commercial buildings in terms of occupancy rate and unit price, BFC recorded total operating revenue of RMB406.22 million, representing an increase of 9.3% from the same period of 2021; operating EBITDA was RMB267.30 million, representing an increase of 16.5% from the same period of 2021. In the first half of 2022, affected by the pandemic, BFC heightened its efforts both online and offline which added about 90,000 members, and the total number of members exceeded 660,000 as at the end of the Reporting Period. For online operation, during the period under closed-loop management due to the pandemic, BFC launched a warm-hearted group-buy campaign, which mobilized nearly 5,000 campaign leaders and empowered over 40 brands. At the same time, the online shopping platform “iShopping” continued its contribution, and held non-stop live streamings during the lockdown period to provide services to its customers. In respect of offline operation, BFC launched the New Spring Festival (新春季) and Fashion Festival (潮流時尚季) and other highlighted activities in succession. By creating its own IP festivals, BFC more accurately reached the trendy young population. In particular, since its launch in June 2020 up to the end of the Reporting Period, BFC’s popular IP “BFC Fengjing” had attracted more than 14 million visitors. Partnered with more than 675 brands, it had brought together seven highlights comprising street culture, pet

communities, art and culture, organic flowers, fashion bars, performing arts activities, and aerial terrace party.

Looking forward, BFC will deepen its implementation of FC2M strategy and introduce Fosun’s excellent industry resources to meet the clients’ needs, providing caring services to each family meeting their desires for a better life, and securing its building of the “Happiness Ecosystem”. Meanwhile, BFC will continue to promote its online businesses, building BFC product lines, completing a thousand of events annually, aiming to become the new commercial benchmark in Shanghai and China. Meanwhile, leveraging its close proximity to Yuyuan Tourist Mart, BFC will strive to achieve two-way empowerment with Yuyuan Tourist Mart in the future, aiming to become a “Broad Yuyuan Cultural Zone” that integrates culture, art, tourism, consumption, finance, commerce and natural scenery with full upgrade of its overall regional image and industrial ecology to become the most representative landmark in Shanghai.

During the Reporting Period, the particulars of the project are as follows:

Name of project	Floor	Area (sq.m.)
GFA		425,591
Grade A offices	S1	107,079
	S2	103,138
	N1	21,425
	N2	25,462
	N3	10,410
Shopping center		117,520
Boutique hotel		36,346
Fosun Foundation Art Center (Shanghai)		4,211

INTELLIGENT MANUFACTURING

During the Reporting Period, the revenue and profit attributable to owners of the parent of the Intelligent Manufacturing segment were as follows:

Unit: RMB million

	For the six months ended 30 June 2022	For the six months ended 30 June 2021	Change over the same period of last year
Revenue	5,127.0	3,569.7	43.6%
Profit attributable to owners of the parent	1,041.0	1,629.1	(36.1%)

During the Reporting Period, the revenue of the Intelligent Manufacturing segment amounted to RMB5,127.0 million, representing a year-on-year increase of 43.6%, and profit attributable to owners of the parent amounted to RMB1,041.0 million, representing a year-on-year decrease of 36.1%. The main reason for the increase in revenue was due to business growth of Hainan Mining and Easun Technology. The main reason for the decrease in profit was due to the year-on-year decrease of profit of companies such as Nanjing Iron & Steel due to an upward raw material price environment.

Nanjing Iron & Steel

Nanjing Iron & Steel, a leading whole-process steel conglomerate with high efficiency, was listed on the SSE in 2000. Nanjing Iron & Steel is equipped with an integrated 10-million-tonne-level production capability of steel. As at the end of the Reporting Period, the Group held 59.12% equity interest in Nanjing Iron & Steel through Nanjing Nangang.

Aiming at the opportunities arising from China's manufacturing upgrade and import substitution, Nanjing Iron & Steel provides solutions for national key projects and high-end manufacturing industry upgrading, and undertook 14 national-level projects. Its 9% Ni steel for ultra-low temperature was awarded as a national manufacturing individual champion product. The sales price and sales volume of Nanjing Iron & Steel's advanced iron and steel materials rose together, achieving a sales volume of 887,500 tonnes, a year-on-year increase of 2.27%; accounting for 18.63% of the total sales volume of steel products, an increase of 2.19 percentage points; the composite average selling price was RMB6,234.94 per tonne (tax exclusive), a year-on-year increase of 9.04%; gross profit margin was 16.80%, a year-on-year increase of 0.60 percentage point; gross profit totalled RMB930 million, a year-on-year increase of 15.68%.

During the Reporting Period, overcoming the impact as a result of the sluggish industrial and supply chains caused by the recurrent pandemic, as well as the high and fluctuating prices of

raw materials and fuels, Nanjing Iron & Steel performed well on pandemic prevention and control in an attentive and practical manner, and maintained stable operation. Nanjing Iron & Steel recorded revenue of RMB34,887.18 million, a year-on-year decrease of 9.59%; net profit attributable to shareholders of the listed company was RMB1,491.94 million, a year-on-year decrease of 34.01%. In the second quarter of 2022, Nanjing Iron & Steel achieved a net profit attributable to shareholders of the listed company of RMB776 million, an increase of 8.31% from the previous quarter.

Nanjing Iron & Steel has built an overseas coke production base in PT Indonesia Morowali Industrial Park, Indonesia, and set up joint ventures for a coke project with an annual output of 6.5 million tonnes. During the Reporting Period, for the PT. KinRui New Energy project with an annual output of 2.6 million tonnes, the 2# coke oven achieved coke discharging. In July 2022, the 1# coke oven achieved ignition and heating-up. In the second quarter of 2022, PT. KinRui New Energy sold more than 40,000 tonnes of coke, achieving a revenue of RMB164.3131 million and a net profit of RMB12.0133 million. PT. KinXiang New Energy completed 2# coke oven building.

In May 2022, Nanjing Iron & Steel obtained the first SA8000 social accountability management system certificate in the domestic steel industry. Nanjing Iron & Steel continues to invest in environmental protection, emission reduction and energy conservation to upgrade the technology, striving to maintain its position as the industry forerunner in the context of “peaking carbon dioxide emissions” and “carbon neutrality”. It completed the renovation for the organized part of ultra-low emission and the clean transportation part of ultra-low emission, which were announced on the website of China Iron and Steel Association. At the same time, it accelerated the implementation of key projects related to fugitive emissions.

Hainan Mining

Regarding the resource industry as its core of development, and leveraging the development opportunities in Hainan, Hainan Mining is committed to becoming an “industrial investment and development group based on strategic resources with international presence” through the twin-driver strategy of industry operations and industrial investment. It was established in August 2007, and was listed on the SSE in December 2014. As at the end of the Reporting Period, the Group held 48.55% equity interest in Hainan Mining.

Hainan Mining focuses on the operation of two types of resources of industry of iron ore and oil and gas, mainly including (i) iron ore mining, processing and sales business; (ii) oil and gas exploring, developing and sales business; (iii) commodity trade and processing business; and (iv) production and sales of sand and gravel materials. During the Reporting Period, Hainan Mining recorded revenue of RMB2,747.55 million, representing an increase of

34.35% year-on-year; net profit attributable to shareholders of the listed company after deducting non-recurring gains and losses of RMB415.87 million, representing an increase of 1.68% year-on-year; net cash flows from operating activities of RMB765.90 million, representing an increase of 180.59% year-on-year.

During the Reporting Period, Hainan Mining maintained stable production of its iron ore mining and processing business at a relatively high level, and continued to reduce costs and enhance efficiency by means such as lean management, improving iron powder yield and optimizing pricing mechanism. In the first half of 2022, raw ore production reached 3.2605 million tonnes, representing an increase of 1.80% year-on-year; finished ore production reached 1.6108 million tonnes, which was basically the same as the same period of last year. Hainan Mining significantly expanded the scale of its oil and gas business along with the consolidation of the Bajiaochang gas field into ROC and the implementation of production and efficiency enhancement measures. Weizhou 12-8E oilfield project in Beibu Gulf of China officially commenced oil production in April 2022, and the construction of the dealkylation treatment plant and compression station in the Bajiaochang gas field has completed the tendering and review processes. In the first half of 2022, Hainan Mining produced 2.8804 million barrels of oil and gas equivalent, representing an increase of 58.21% year-on-year. Meanwhile, the steady improvement of oil and gas business benefited from the average Brent crude oil price increase of more than 60% compared with the same period of last year.

During the Reporting Period, Hainan Mining actively proceeded with the implementation of the “14th Five-Year” strategic plan, and accelerated the deployment of new energy upstream industries. Hainan Xingzhihai New Materials Co., Ltd.* (海南星之海新材料有限公司), its wholly-owned subsidiary, entered into an investment agreement with the management committee of Yangpu Economic Development Zone, Danzhou City, Hainan Province, to implement the 20,000-tonne lithium hydroxide project (Phase I) which will be located in Yangpu Economic Development Zone. It is expected that the project site will be approved quickly, and the project will fully enjoy the superior geographical location, port conditions and preferential policies of Yangpu.

In terms of organization construction, Hainan Mining launched its first share incentive scheme in March 2022. Its first grant awarded 137 grantees including its directors, senior executives and core management. In addition, Hainan Mining continued to strengthen the construction of a skilled talent pipeline, and received approvals for various Hainan-Province level vocational skills certification in June 2022. Hainan Mining achieved more results in terms of technological innovation. During the Reporting Period, Hainan Mining received approvals for three utility models, and completed eight scientific research projects involving increase of ore recovery rate, improvement of mining grade rate and other areas.

In the second half of 2022, Hainan Mining will stay focused on the twin-driver strategy of “profound industry operations + industrial investment”. On one hand, it will continue to strengthen its existing business, endeavor to finish iron ore production reaching 3 million tonnes and oil-gas valent weight reaching 5.42 million for the year, and push forward key construction projects such as magnetization roasting and lithium hydroxide. On the other hand, it will continue to pay attention to the investment and acquisition opportunities of new energy upstream resources and natural gas and other clean energy projects that can achieve long-term growth, and strive to achieve their implementation. At the same time, Hainan Mining will conduct in-depth studies on the new policies for Hainan Free Trade Port, focus on the future customs closure operation mechanism of Hainan, and plan development projects in advance.

JEVE

Established in 2009, JEVE is one of the earliest domestic enterprises to enter into the new energy passenger vehicle power lithium battery industry, with products covering NCM lithium and lithium iron phosphate systems which serve to meet demands in pure electric vehicles, hybrid electric vehicles, plug-in hybrid electric vehicles and energy storage fields. During the Reporting Period, JEVE maintained a relatively high growth rate relying on technological innovation as well as lean management and operation, and ushered in the boom of production and sales. Its revenue increased by 135.99% year-on-year to RMB883.36 million, and its installed capacity increased by 72% year-on-year to 0.9GWh. As at the end of the Reporting Period, the Group and the non-consolidated entities in which the Group participated in the investment jointly held 49.95% equity interest in JEVE.

In terms of R&D, JEVE further strengthened cooperation with renowned scientific research institutes, actively deployed cutting-edge technologies, and increased investment in R&D. As at the end of the Reporting Period, JEVE had applied for 1,025 patents, among which 412 were invention patents, and undertook 15 national projects and 11 local projects. Based on the soft pack cell with an energy density of approximately 320Wh/kg developed by itself, JEVE continued to develop a product system with an energy density of 350Wh/kg. In terms of core products, on the basis of consolidating the four product matrix comprising 355 cells and modules, 590 cells and modules, high power HEV products, and LCM cells and modules, JEVE has also simultaneously completed the development of square aluminum shell products, and has accelerated the construction of the square aluminum shell production line.

In terms of production capacity construction, on the basis of the four existing production bases in Tianjin, Yancheng, Jiaxing and Changxing, JEVE has been actively planning to

acquire additional production capacity. In early 2022, JEVE and Chuzhou Tianchang Municipal Government entered into a strategic cooperation agreement to reach cooperation regarding the launch of JEVE's power lithium battery production base project in Chuzhou and developed the Chuzhou production base. The Chuzhou production base has a planned capacity of 20GWh, with product types covering lithium iron phosphate and NCM materials system, and is scheduled to be put into operation by the end of 2023. The construction of the Chuzhou base will lay a foundation for JEVE's future business development and market expansion, and further enhance the market competitiveness of JEVE.

In terms of customer development, on the basis of maintaining the profound cooperation with existing customers such as Great Wall (長城), Chery (奇瑞), Hozon (合眾), SAIC (上汽), and Dongfeng (東風), JEVE has further obtained official nomination notification from JMEV (江鈴雷諾), Dayun Motor (大運汽車), the new project of Great Wall (長城新項目), the new project of Chery (奇瑞新項目) and Zhouzhihang (舟之航), passed the Dongfeng Nissan ASES audit and the Volkswagen quality system audit, and received the development and quotation inquiries for three new products from a European car brand, which fully demonstrated the affirmation of JEVE's technical capabilities from the leading customers. In February 2022, JEVE and Chery New Energy signed a strategic cooperation agreement, pursuant to which Chery New Energy intends to purchase power batteries from JEVE in the next three years.

Looking forward, based on the existing market capacity and scale, JEVE will conduct in-depth analysis and implement measures practically by way of the four dimensions of "target customer planning, product and R&D technology planning, marketing planning, and capital planning", so as to achieve the leading position in the domestic soft package battery field, and finally become an outstanding green energy system solution provider.

Easun Technology

Established in 1974, FFT is one of the world's largest providers of intelligent manufacturing solutions. In July 2018, Easun Technology was established. In May 2019, Shanghai FFT Automation Technology Co., Ltd., the predecessor of Easun Technology, acquired 100% equity interest in FFT and became an integrated solutions provider for the automobile industry. Easun Technology completed introduction of strategic investors in early 2021. In July 2021, the first phase of factory construction of FFT global headquarters in Jiading District, Shanghai was completed. As at the end of the Reporting Period, the Group and the non-consolidated entities in which the Group participated in the investment held 83.70% equity interest in Easun Technology.

Since 2021, Easun Technology has been focusing on the development of two core businesses in the global market: (i) the design and assembly of automated and digital production lines and (ii) the design and upgrading of manufacturing software for the automotive industry, and will continue to accelerate the development of industrial digitalization business to provide customers with a full-dimensional coverage of intelligent factory solutions.

During the Reporting Period, in the face of the complex external environment, Easun Technology overcame the impact of the epidemic, strengthened its business foundation and continued to adhere to its corporate strategy.

In the future, while continuing to invest in R&D and global supply chain construction and reduce costs, Easun Technology will enhance the profitability and competitiveness of its main business in the automotive industry, expand its performance scale and market share, fully utilize its own automation technology accumulation, and continuously digest and absorb different industry techniques. Moreover, Easun Technology will continue to expand its existing proprietary technologies and standard product sequences in laser, vision, lightweight fixture, etc., build superior intelligent equipment as part of the production lines designed by it through endogenous R&D and outbound mergers and acquisitions, accelerate the development of industrial digitization business, and provide customers with complete smart factory solutions.

Wansheng

Wansheng was established in 1995 and listed on the SSE in October 2014. Since its establishment, Wansheng has been focusing on the production, R&D and sales of functional fine chemicals, and has become a world-leading producer of phosphorus-based flame retardant after years of development. The products of Wansheng can be divided into flame retardant, functional daily chemical additives, amine booster, catalyst and coating booster, which are all new field functional fine chemicals. Its products are mainly used in the “immediate needs” industry (for example: automotive, electronic appliances, network communication equipment, construction, furniture, personal care materials, etc.), which is closely related to daily life. As at the end of the Reporting Period, Nanjing Iron & Steel held 29.56% equity interest in Wansheng and was the controlling shareholder of Wansheng.

In the first half of 2022, due to the spreading epidemic, the global economic downturn and the weakening of demand in the end market, the downstream demand for phosphorus-based flame retardant, Wansheng’s revenue was RMB1.795 billion, down 8% year-on-year, while net profit attributable to the parent was RMB0.24 billion, declined by 44% year-on-year due to a reduction in the sales volumes and gross margin of the products.

In terms of investment, Wansheng engaged in two new projects in the first half of 2022: (1) Wansheng entered into an agreement to acquire 100% equity interest in Shandong Hanfeng New Material Technology Co., Ltd. (山東漢峰新材料科技有限公司), which will help to comprehensively extend Wansheng's industrial chain, reduce production costs, secure raw material supply and enhance comprehensive competitiveness; and (2) Wansheng undertook investment jointly with Biocreat (Shenzhen) Biotechnology Co., Ltd. (百葵銳(深圳)生物科技股份有限公司) and Yangzhou Xinhesheng Investment Partnership (Limited Partnership) (揚州新合盛投資合夥企業(有限合夥)) to establish a R&D company, which will mainly focus on novel technique for the R&D and production of amino acid surfactants using biosynthesis. The project is a key initiative for Wansheng to implement its strategic planning on biotechnology.

In terms of capacity construction, Wansheng has four main production bases: (1) Zhejiang Linhai Duqiao Medical and Chemical Park Production Base, which produces flame retardants and coating additives, with a designed capacity of 133,500 tonnes; (2) Jiangsu Taixing Economic Development Production Base, which produces amine additives and catalysts, with a designed production capacity of 100,000 tonnes. In addition, the Dawei technical transformation project (annual output of 15,000 tonnes of fatty tertiary amines, 10,000 tonnes of quaternary ammonium salts, and 2,000 tonnes of electronic grade trioctylamine) has entered the trial production stage in August 2022; (3) Shandong Weifang Binhai Chemical Industry Production Base, which produces flame retardant raw materials, flame retardants, epoxy resins and additives, surfactants, etc., is still under construction. After the construction is completed, an additional capacity of 550,000 tonnes (319,300 tonnes in the first phase) will be added; and (4) The production base of Wenshang Chemical Industrial Park, Jining City, Shandong (Shandong Hanfeng), produces phosphorus trichloride (intermediate), phosphorus oxychloride, phosphorus pentachloride and other products, with a total production capacity of 190,000 tonnes, of which the first phase project (140,000 tonnes) has entered the trial production stage in August 2022.

Looking forward, Wansheng will create more value for customers through continuous innovation, become a trusted partner for global customers, and develop into a globally leading supplier of functional new materials.

FINANCIAL REVIEW

NET INTEREST EXPENDITURES

Net interest expenditures, net of capitalized amounts of the Group, increased to RMB5,124.7 million for the six months ended 30 June 2022 from RMB4,546.4 million for the six months ended 30 June 2021. The increase in net interest expenditures was mainly attributable to the increase in the total debt. For the six months ended 30 June 2022, the interest rates of borrowings were approximately between 0.0% and 12.1% as compared with approximately between 0.0% and 9.8% over the same period of last year.

TAX

Tax of the Group was RMB1,295.5 million for the six months ended 30 June 2022, which was decreased by RMB987.9 million compared with that for the six months ended 30 June 2021 of RMB2,283.4 million. The decrease in tax was mainly due to the decrease in taxable profit of the Group.

INDEBTEDNESS AND LIQUIDITY OF THE GROUP

As of 30 June 2022, the total debt of the Group was RMB261,118.3 million, representing an increase from RMB237,119.5 million as of 31 December 2021, which was mainly due to the increase in borrowings as a result of business expansion of various segments of the Group. As of 30 June 2022, medium-to-long-term debt of the Group accounted for 52.6% of total debt, while 55.6% as of 31 December 2021. As of 30 June 2022, cash and bank balance and term deposits increased by RMB20,874.2 million to RMB117,653.7 million as compared with RMB96,779.5 million as of 31 December 2021.

TOTAL DEBT TO TOTAL CAPITAL RATIO

As of 30 June 2022, the ratio of total debt to total capital increased to 56.8% as compared with 53.8% as of 31 December 2021. The healthy debt ratios and abundant funds can reinforce the Group's ability to defend against external risk exposure and ensure the Group to capture investment opportunities.

AVAILABLE FACILITIES

As at 30 June 2022, save for cash and bank balances and term deposits of RMB117,653.7 million, the Group had unutilized banking facilities of RMB151,305.6 million. The Group has

signed strategic cooperation agreements with various foreign and Chinese banks. According to these agreements, the banks committed to strengthening further on the existing relationship, and providing comprehensive financial support toward the Group's "Health, Happiness, Wealth and Intelligent Manufacturing" businesses. Prior approval of individual projects by banks in accordance with bank regulations of China must be obtained before the use of these banking facilities. As at 30 June 2022, available banking facilities under these arrangements totaled approximately RMB336,762.6 million, of which RMB185,457.0 million was utilized.

INTEREST COVERAGE

For the six months ended 30 June 2022, the interest coverage was 3.0 times as compared with 3.8 times for the same period in 2021. The decrease was mainly due to the decrease in EBITDA of the Group for the Reporting Period decreased to RMB15,576.3 million from RMB17,280.0 million for the same period in 2021.

1. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES

1.1 BASIS OF PREPARATION

The interim condensed consolidated financial information for the six months ended 30 June 2022 (the “Period”) has been prepared in accordance with HKAS 34 *Interim Financial Reporting*. The interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended 31 December 2021.

The financial information relating to the year ended 31 December 2021 that is included in the interim condensed consolidated statement of financial position as comparative information does not constitute the Company’s statutory annual consolidated financial statements for that year but is derived from those financial statements. Further information relating to those statutory financial statements required to be disclosed in accordance with section 436 of the Hong Kong Companies Ordinance is as follows:

The Company has delivered the financial statements for the year ended 31 December 2021 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance. The Company’s auditors have reported on the financial statements for the year ended 31 December 2021. The auditor’s report was unqualified; and did not contain a statement under sections 406(2), 407(2) or 407(3) of the Hong Kong Companies Ordinance.

**1. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES
(Continued)**

1.2 CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2021, except for the adoption of the following revised Hong Kong Financial Reporting Standards ("HKFRSs") for the first time for the current period's financial information.

Amendments to HKFRS 3	<i>Reference to the Conceptual Framework</i>
Amendments to HKAS 16	<i>Property, Plant and Equipment: Proceeds before Intended Use</i>
Amendments to HKAS 37	<i>Onerous Contracts - Cost of Fulfilling a Contract</i>
<i>Annual Improvements to HKFRSs 2018-2020</i>	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41

1. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES
(Continued)

1.2 CHANGES IN ACCOUNTING POLICIES (Continued)

The nature and impact of the revised HKFRSs are described below:

- (a) Amendments to HKFRS 3 replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the *Conceptual Framework for Financial Reporting* issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group has applied the amendments prospectively to business combinations that occurred on or after 1 January 2022. The amendments did not have any significant impact on the financial position and performance of the Group.
- (b) Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The Group has applied the amendments retrospectively to items of property, plant and equipment made available for use on after 1 January 2021. The amendments did not have any significant impact on the financial position or performance of the Group.

1. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES
(Continued)

1.2 CHANGES IN ACCOUNTING POLICIES (Continued)

- (c) Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The Group has applied the amendments prospectively to contracts for which it has not yet fulfilled all its obligations at 1 January 2022. The amendments did not have any significant impact on the financial position or performance of the Group.

1. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES
(Continued)

1.2 CHANGES IN ACCOUNTING POLICIES (Continued)

(d) Annual Improvements to HKFRSs 2018-2020 sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are applicable to the Group are as follows:

- HKFRS 9 Financial Instruments: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. The Group has applied the amendment prospectively to financial liabilities that are modified or exchanged on or after 1 January 2022. The amendment did not have any significant impact on the financial position or performance of the Group.
- HKFRS 16 Leases: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

1. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES
(Continued)

1.3 PRIOR PERIOD RESTATEMENT

1.3.1 RESTATEMENT OF PRIOR PERIOD'S FINANCIAL STATEMENTS AS A RESULT OF BUSINESS COMBINATIONS FOR ENTITIES UNDER COMMON CONTROL

In September 2021, Shanghai Fuyu Culture and Development Co., Ltd. (renamed as Shanghai Fosun Sports Group Co., Ltd), an indirectly owned subsidiary of the Company acquired the domestic target assets held by Shanghai Foyo Culture and Entertainment Co., Ltd. and 100% equity interest in Shanghai Mengmeng Information Technology Co., Ltd. (“Shanghai Mengmeng”), Shanghai Yichuan Information Technology Co., Ltd. (“Shanghai Yichuan”), Shanghai Quanzhudong Information Technology Co., Ltd. (“Shanghai Quanzhudong”), Shanghai Fuqinglan Information Technology Co., Ltd. (“Shanghai Fuqinglan”), Shanghai Maibu Information Technology Co., Ltd. (“Shanghai Maibu”) at a purchase consideration of RMB 80,000,000. The Domestic Target Companies (namely, Shanghai Mengmeng, Shanghai Yichuan, Shanghai Quanzhudong, Shanghai Fuqinglan and Shanghai Maibu) are principally engaged in the businesses of e-sports, sports, information services and games.

In September 2021, Fosun Sports Group S.à r.l., an indirectly owned subsidiary of the Company, acquired 80.00% equity interest in Restart Limited (“Restar”) held by HD Games Limited and 100% equity interest in EZ Games Digital Technology Co., Ltd. (“EZ Games”) at a purchase consideration of RMB 180,000,000. The HK Target Companies (namely, EZ Games and Restar) are principally engaged in businesses of game publishing in Hong Kong, Macau, Taiwan region, and Japan.

After the completion of the acquisition, these acquired companies were accounted for as subsidiaries of the Group. Since the Company and these acquired companies were under common control of Mr. Guo Guangchang (“Mr. Guo”, the ultimate controlling shareholder of the Company) before and after the completion of the aforesaid acquisition, the business combination of these acquired companies have been accounted for by applying pooling of interest method.

1. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES
(Continued)

1.3 PRIOR PERIOD RESTATEMENT (Continued)

1.3.1 RESTATEMENT OF PRIOR PERIOD'S FINANCIAL STATEMENTS AS A
RESULT OF BUSINESS COMBINATIONS FOR ENTITIES UNDER
COMMON CONTROL (Continued)

Business combinations arising from transfers of interests in entities that are under the control of the ultimate shareholder that controls the Group are accounted for as if the acquisitions had occurred at the beginning of the earliest date presented or, if later, at the date that common control was established. The assets and liabilities acquired are recognised at the carrying amounts recognised previously in the acquired entities' financial statements

Upon transfer of interest in an entity to another entity that is under the control of the ultimate shareholder that controls the Group, any difference between the Group's interest in the carrying value of the assets and liabilities and the cost of transfer of interest in the entity is recognised directly in equity.

The consolidated statement of comprehensive income includes the results of each of the combining entities from the earliest date presented or since the date when the combining entities first came under the common control, where this is a shorter period.

All intra-group balances, transactions, unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full on consolidation.

The opening balances as at 1 January 2021 and comparative information for the period ended 30 June 2021 have been restated in the interim condensed consolidated financial statements.

(Continued)

1.3 PRIOR PERIOD RESTATEMENT (Continued)

1.3.2 QUANTITATIVE IMPACT ON THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Details of the restated interim condensed consolidated statement of profit or loss for the six months ended 30 June 2021 includes the followings:

	As previously reported RMB'000	Effect of prior period adjustments RMB'000 (note 1.3.1)	As restated RMB'000
Revenue	70,405,793	37,142	70,442,935
Cost of sales	(46,551,087)	(85,555)	(46,636,642)
Other income and gains	11,119,866	7,847	11,127,713
Selling and distribution expenses	(10,988,775)	(8,365)	(10,997,140)
Administrative expenses	(11,942,101)	(7,216)	(11,949,317)
Other expenses	(3,817,212)	(31)	(3,817,243)
Finance costs	(4,740,527)	-	(4,740,527)
Tax	(2,283,422)	(1,557)	(2,284,979)

2. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has five reportable operating segments as follows:

- (i) The Health segment engages in the research and development, manufacture, sale and trading of pharmaceutical and health products and providing medical services and health management;
- (ii) The Happiness segment comprises principally the operation and investments in tourism and leisure, fashion consumer and lifestyle industries;
- (iii) The Insurance segment mainly engages in the operation of and investment in the insurance businesses;
- (iv) The Asset Management segment comprises principally the operation and investment of asset managements, market investments, and investments in other companies of the Group; and
- (v) The Intelligent Manufacturing segment comprises principally the operation of and investment in the intelligent manufacturing and iron, steel and ore production.

Both the Insurance segment and the Asset Management segment listed above belong to the Wealth sector of the Group.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment.

Segment performance is evaluated based on reportable segment profit or loss, which is measured consistently with the Group's profit or loss after tax. The head office and corporate expenses are allocated to each reportable segments based on their respective utilization of internal resources. Certain interest bearing bank and other borrowings which are managed on the group basis are allocated to each reportable segments based on their respective utilization of the financing.

Inter-segment sales and transfers are transacted with reference to the fair selling prices used for sales made to third parties at the then prevailing market prices.

- Income tax in Chinese Mainland for the period	(2)	837,631	739,777
- LAT in Chinese Mainland for the period	(3)	346,953	438,179
Deferred		<u>(1,263,696)</u>	<u>(218,570)</u>
Tax expenses for the period		<u>1,295,463</u>	<u>2,284,979</u>

6. TAX (Continued)

Notes:

- (1) Taxes on profits assessable elsewhere have been calculated at the tax rates prevailing in the jurisdictions in which the Group operates. Hong Kong profits tax has been provided at the rate of 16.5% (six months ended 30 June 2021: 16.5%) on the estimated assessable profits arising in Hong Kong during the Period.

The provision for income tax of Peak Reinsurance Company Limited (“Peak Re”) incorporated in Hong Kong is based on a preferential rate for insurance companies of 8.25% (six months ended 30 June 2021: 8.25%).

The provision for income tax of Alma Lasers Ltd. (“Alma Lasers”), a subsidiary of Shanghai Fosun Pharmaceutical (Group) Co., Ltd. (“Fosun Pharma”), which was incorporated in Israel, is based on a preferential rate of 6% (six months ended 30 June 2021: 6%).

The provision for income tax of Fidelidade - Companhia de Seguros, S.A., Multicare - Seguros de Saúde, S.A. and Fidelidade Assistência - Companhia de Seguros, S.A., subsidiaries incorporated in Portugal, is based on a rate of 31.5% (six months ended 30 June 2021: 31.5%).

6. TAX (Continued)

Notes: (Continued)

(1) (Continued)

The provision for income tax of AmeriTrust Group, Inc. and its subsidiaries which was incorporated in the United States is based on a rate of 21% (six months ended 30 June 2021: 21%).

The provision for income tax of Club Med Holding and its subsidiaries which was incorporated in France acquired by the Group is based on a rate of 32.02% (six months ended 30 June 2021: 32.02%).

The provision for income tax of Hauck Aufhäuser Lampe Privatbank AG and its subsidiaries which was incorporated in Germany is based on a rate of 31.80% (six months ended 30 June 2021: 32.10%).

The provision for income tax of Gland Pharma Limited (“Gland”), which was incorporated in India, is based on a statutory rate of 25.17% (six months ended 30 June 2021: 25.17%).

- (2) The provision for Chinese Mainland current income tax is based on a statutory rate of 25% (six months ended 30 June 2021: 25%) of the assessable profits of the Group as determined in accordance with the Enterprise Income Tax Law of the PRC which was approved and became effective on 1 January 2008, except for certain subsidiaries of the Group in Chinese Mainland, which were taxed at preferential rates of 0% to 20%.

6. TAX (Continued)

Notes: (Continued)

- (3) According to the tax notices issued by the relevant local tax authorities, the Group commenced to pay land appreciation tax (“LAT”) at rates ranging from 0.5% to 5% on proceeds from the sale and pre-sale of properties from 2004. The Directors considered that the relevant tax authorities would unlikely impose additional LAT levies other than the amount already paid based on the relevant percentages of the proceeds from the sale and pre-sale of the Group’s properties.

During the Period, the prepaid LAT of the Group amounted to RMB 149,165,000 (six months ended 30 June 2021: RMB204,232,000).

In addition, based on the latest understanding of the LAT regulations from the State Administration of Taxation, the Group made an additional LAT provision in the amount of RMB448,325,000 (six months ended 30 June 2021: RMB258,695,000) in respect of the sales of properties in the Period in accordance with the requirements set forth in the relevant PRC tax laws and regulations. During the Period, unpaid LAT provision in the amount of RMB 250,537,000 (six months ended 30 June 2021: RMB24,748,000) was reversed to the consolidated statement of profit or loss upon the completion of the liquidation and clearance with the local tax authorities by certain subsidiaries of the Group.

**7. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY
HOLDERS OF THE PARENT**

The calculation of the basic earnings per share amount is based on the profit for the Period attributable to ordinary equity holders of the parent, adjusted to reflect the cash dividends distributed to the share award scheme, and the weighted average number of ordinary shares of 8,294,589,202 (six months ended 30 June 2021: 8,367,986,984) in issue during the Period.

The calculation of the diluted earnings per share amount is based on the profit for the Period attributable to ordinary equity holders of the parent. The weighted average number of ordinary shares used in the calculation is the weighted average number of ordinary shares in issue during the Period, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued on the deemed vesting or conversion of all dilutive potential ordinary shares into ordinary shares.

**7. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY
HOLDERS OF THE PARENT (Continued)**

The calculations of the basic and diluted earnings per share are based on:

	For the six months ended 30 June	
	2022	2021
	RMB'000	RMB'000
	(Unaudited)	(Unaudited)
		(Restated)
<u>Earnings</u>		
Profit attributable to ordinary equity holders of the parent	2,697,048	4,004,446
Less: Cash dividends distributed to share award scheme	<u>(10,928)</u>	<u>(3,958)</u>
Adjusted profit attributable to ordinary equity holders of the parent, used in the basic earnings per share calculation	2,686,120	4,000,488
Cash dividends distributed to the share award scheme	<u>10,928</u>	<u>3,958</u>
Profit attributable to ordinary equity holders of the parent, used in the diluted earnings per share calculation	<u>2,697,048*</u>	<u>4,004,446</u>

7. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY
HOLDERS OF THE PARENT (Continued)

The calculations of the basic and diluted earnings per share are based on:
(Continued)

	Number of shares	
	For the six months ended 30 June	
	2022	2021
	(Unaudited)	(Unaudited)
<u>Shares</u>		
Weighted average number of ordinary shares in issue during the period used in the basic earnings per share calculation	8,294,589,202	8,367,986,984
Effect of dilution – weighted average number of ordinary shares:		
– Share award scheme	8,204,250	8,013,313
Share option scheme	<u>-</u>	<u>2,706,033</u>
Weighted average number of ordinary shares used in the calculation of diluted earnings per share	<u>8,302,793,452*</u>	<u>8,378,706,330</u>
Basic earnings per share (RMB)	<u>0.32</u>	<u>0.48</u>
Diluted earnings per share (RMB)	<u>0.32</u>	<u>0.48</u>

**7. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY
HOLDERS OF THE PARENT (Continued)**

* Because the diluted earnings per share amount is increased when taking the share award scheme into account, the share award scheme had an anti-dilutive effect on the basic earnings per share for the six months ended 30 June 2022 and were ignored in the calculation of diluted earnings per share. The potential ordinary shares of the share option scheme are excluded from the calculation of diluted earnings per share, because the exercise price of the share option scheme is higher than the average market price of the ordinary shares of the Company for the six months ended 30 June 2022. Therefore, the diluted earnings per share amount is based on the profit for the six months ended 30 June 2022 of RMB 2,686,120,000, and the weighted average number of ordinary shares of 8,294,589,202 in issue for the six months ended 30 June 2022.

10. DIVIDENDS

	For the six months ended 30 June	
	2022	2021
	RMB'000	RMB'000
	(Unaudited)	(Unaudited)
Final declared – HKD0.30 per ordinary share (2021: HKD0.22)	<u>2,072,867</u>	<u>1,537,028</u>

The proposed final dividend of HKD 0.30 per ordinary share for the year ended 31 December 2021 was approved by the shareholders at the annual general meeting of the Company on 2 June 2022.

The board of directors did not recommend the payment of an interim dividend in respect of the Period (six months ended 30 June 2021: Nil).

11. EVENT AFTER THE REPORTING PERIOD

In July 2022, Fosun Pharma, a subsidiary of the Group, issued 106,756,666 A-shares to 10 specific targets in a non-public offering at an issue price of RMB 42 per share, and the total amount of funds raised is RMB 4,483,779,972. The share registration procedures for the newly issued A-shares were completed at the Shanghai Branch of China Securities Depository and Clearing Corporation Limited on 27 July 2022. The newly issued A-shares are tradable shares with restricted sales conditions. The shares subscribed by the issuers shall not be transferred within 6 months from the date of the end of the issuance day. After the completion of the non-public offering, the equity interests of the Group in Fosun Pharma will be diluted from approximately 39.6% to approximately 38.0%.

12. COMPARATIVE AMOUNTS

As stated in note 1.3, the comparative amounts have been restated to reflect the prior period adjustments relating to the business combination under common control.

INTERIM DIVIDEND

The Board has resolved not to declare or distribute any interim dividend for the Reporting Period.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

The Company purchased a total of 500,000 Shares on the Hong Kong Stock Exchange at an aggregate consideration of HKD4,120,750 during the Reporting Period. As at the end of the Reporting Period, all the purchased Shares have been cancelled.

Month	Total number of Shares purchased	Purchase price paid per Share		Total purchase price paid (HKD)
		Highest (HKD)	Lowest (HKD)	
January 2022	500,000	8.32	8.14	4,120,750
Total	500,000	–	–	4,120,750

Save as disclosed above, neither the Company nor any of its subsidiaries purchased, sold or redeemed any Shares during the Reporting Period.

SHARE AWARD SCHEME

The share award scheme was adopted by the Company on 25 March 2015 (the “**Share Award Scheme**”), unless otherwise defined, the capitalized terms used herein shall have the same meanings as set out in the circular of the Company dated 27 April 2022.

The purposes of the Share Award Scheme are (i) to align the interests of the eligible persons with those of the Group through ownership of Shares, dividends and other distributions paid on Shares and/or the increase in value of the Shares; and (ii) to encourage and retain the eligible persons to make contributions to the long-term growth and profits of the Group.

On 24 March 2022, the Board resolved to award an aggregate of 30,979,000 award shares (the “**2022 Award Shares**”) to 143 Selected Participants under the Share Award Scheme. 2022 Award Shares had been issued and allotted pursuant to a specific mandate obtained in the annual general meeting of the Company held on 2 June 2022. Subject to the satisfaction of the vesting criteria and conditions of the Share Award Scheme, the 2022 Award Shares shall be transferred from the trustee, Computershare Hong Kong Trustees Limited (the “**Trustee**”) to the Selected Participants upon expiry of the respective vesting period. As at the end of the Reporting Period, 2022 Award Shares have been fully issued to the Trustee.

SHARE OPTION SCHEMES

The Company adopted a share option scheme on 19 June 2007 and it was expired on 18 June 2017 (the “**Old Share Option Scheme**”). All outstanding options granted under the Old Share Option Scheme will continue to be valid and exercisable in accordance with the provisions of the Old Share Option Scheme. The Company adopted a new share option scheme on 6 June 2017 (the “**New Share Option Scheme**”). The purpose of the New Share Option Scheme is to provide incentive and/or reward to eligible persons for their contribution to, and continuing efforts to promote the interest of the Group.

The Board announced that on 24 March 2022, subject to the acceptance of relevant grantees, the Company has decided to grant 59,300,000 share options to subscribe for an aggregate of 59,300,000 Shares under the New Share Option Scheme.

REVIEW OF INTERIM RESULTS

The audit committee of the Company (the “**Audit Committee**”) comprises four Independent Non-Executive Directors, namely Mr. Zhang Shengman (Chairman), Mr. David T. Zhang, Dr. Lee Kai-Fu and Ms. Tsang King Suen Katherine. Mr. Zhang Huaqiao resigned as a member of the Audit Committee on 23 March 2022 in order to devote more time in his duties in other board committees of the Company. None of the members of the Audit Committee is a former partner of the Company’s existing external auditors. The main duties of the Audit Committee are to review the relationship with external auditors, review the Company’s financial information and oversee the financial reporting system, risk management and internal control systems of the Company, and to provide recommendations and advice to the Board.

The interim results of the Company for the Reporting Period are unaudited but have been reviewed by the Audit Committee. The Audit Committee does not have any disagreement with the accounting treatment adopted by the Company.

COMPLIANCE WITH THE CG CODE

During the Reporting Period, the Company applied the principles of and fully complied with all code provisions as set out in the CG Code. The Company regularly reviews its corporate governance practices to ensure compliance with the CG Code.

PUBLICATION OF INTERIM REPORT

This results announcement is published on the websites of the Hong Kong Stock Exchange (<http://www.hkexnews.hk>) and the Company (<http://www.fosun.com>). The interim report will be despatched to the shareholders of the Company and published on both websites on or before 30 September 2022.

FORWARD-LOOKING STATEMENTS

This announcement includes certain forward-looking statements which involve the financial conditions, results and businesses of the Group. These forward-looking statements are the Group's expectation or beliefs for future events and they involve known and unknown risks and uncertainties, which may cause actual results, performance or development of the situation to differ materially from the situation expressed or implied by these statements.
